SENT FORWARD**

Gasoline Tax Bill Will be  
Considered Today

Criminal Clauses Cut From  
Proposed Law

Both Houses Move Slowly in  
Clearing Slate

(BY A. P. NIGHT WIRE.)

SACRAMENTO, May 15.—The gasoline tax bill, which sets a 2-cent-a-gallon tax on gasoline, was today advanced to third reading in the Assembly after an unsuccessful attempt had been made by Cleveland, with the support of Doster and others, to amend it. Cleveland wanted to amend the bill by providing for the distribution of the accruing tax money to the counties on a basis of their contributions to the tax instead of on a basis proportional to their license fees, arguing that gasoline consumption and not motor vehicles was the real tax of the automobile use in the counties affected. The amendment was defeated.

The Reed motor vehicle law, which has been under consideration in the Senate and later in the Assembly committee, was also advanced to third reading, after some amendments had been incorporated, and others defeated.

Mrs. Dorris offered the first successful amendment. It takes the control of weight limits on county highways away from the Highway Commission and leaves that matter with the County Supervisors, where it now rests. Mrs. Dorris argued that local officers were better able to decide what their own roads could bear and what the traffic requirements were than a nonresident body. The amendments were adopted by a margin of five votes.

**CRIMINAL CLAUSES CUT OUT**

Mr. Coombs also cut amendments dealing with criminal phases of the law. One section dealing with the

(BY A. P. NIGHT WIRE.)

SACRAMENTO, May 15.—Gov. Richardson today established a precedent by waiving his right to pocket veto. This occurred when Assembly Bill 475 by Crittenden was returned to the Assembly without the governor's approval. The bill defines collection agencies and purports to regulate them. The Governor also vetoed a bill declaring a road from Willows to Westport in Mendocino county to be a State highway. This was introduced by Assemblyman Connolly and Bernard.

The Governor also vetoed and returned Assembly Bill 257, by Burns and Hornblower, which was a new general law regulating employment during strikes and in anticipation of labor troubles.

The Governor signed the following bills: Assembly Bill 127, by Bromley: Provides for the laying out of camp sites on State lands. Assembly Bill 114, by Morris: Allows the Motor Vehicle Division to destroy old registration records. Assembly Bill 115, by Reisdorf: Permits municipal corporations to sell, lease or otherwise transfer the control of operation of any municipal water-works system to any municipal water district.

**JAIL BRINGS REPLY IN**

**CULT INVESTIGATION**

(BY A. P. NIGHT WIRE.)

ST. JOSEPH, (Mich.) May 15.—Harry Dingsman, presiding Circuit Court judge of the Michigan bench and one-man grand jury, investigating charges of asserted immorality in the House of David colony, sent Gay Cow, a 17-year-old Shiloh girl, to jail today when she refused to answer questions.

The girl was returned to the stand later and answered the questions she had previously refused to reply to, and was shortly afterward on her way back to Shiloh in the care of Mrs. Cora Mooney.

Judge Dingsman said he expects to send a physician to the colony to examine Eudorpha Smith, whose subpoena to appear was answered by a physician's certificate that she was suffering from a nervous breakdown.

Four of the recent recruits in a group marriage have been summoned to appear tomorrow for questioning regarding the fulfillment of the tenets of the cult religion since their marriage.

**GOVERNMENT TO BUILD**

**AIR FIELD AT BAY CITY**

(EXCLUSIVE DISPATCH.)

WASHINGTON, May 15.—Erection of a new Army aviation base on Government Island in the San Francisco Bay to cost an aggregate of \$2,000,000, has been determined on by the aviation committee of the War Department.

The bill of exceptions and assignment of errors, was prepared today in New York for presentation here tomorrow.

**Rum Runner in**

**East Wrecked;**

**Crew is Lost**

(EXCLUSIVE DISPATCH.)

NEW YORK, May 15.—News of the destruction of a heavily laden rum runner, the Thelma Phoebe, off the southern Atlantic coast was received here today. The vessel was bound from the Bahamas to Rum Row, off San Juan, with a cargo of liquor valued at a quarter of a million dollars.

Owing to the fact that no trustworthy information could be obtained from the crew, it was believed, however, that the Thelma Phoebe was running too close to land and was wrecked.

Both the ship and the liquor, it is understood, were a total loss. The crew, however, was rescued and others were unaccounted for.

**GRAFT CHARGED IN**

**GOVERNMENT WORK**

(BY CABLE AND ASSOCIATED PRESS.)

HONOLULU, May 15.—U. S. Atty. William T. Carden today charged graft in the case of several employees on construction work at Seward Barracks, charging conspiracy to hire Japanese labor in violation of the law prohibiting alien labor on government construction, and also asserting padding of pay rolls to the extent of \$107,500. The warrants were issued today.

Those charged are J. M. Hammond, superintendent of construction, three foremen, one timekeeper and Wakamatsu Yamana, sub-foreman.

The complaint asserts that seven Japanese names were added to the pay roll, the seven who actually were working being schooled to sign several times for the pay of the asserted nonexistent laborers.

DENVER, May 15.—Several fashionable parties gave to a temporary standstill, mansions were lighted with candles and those who were fortunate as to possess the tall lighting equipment groped their way about in the darkness while a main line feeder of the Denver Gas and Electric Light Company broke at Thirteenth and Elati streets shortly after 10 o'clock last night, leaving the exclusive Capitol Hill and Country Club districts in total darkness.

## MILWAUKEE

MILWAUKEE, May 15.—Many citizens of North Fond Du Lac, Wis., and other towns are members of a secret cult known as "God's House," which is alleged to have caused an immoral practices. Federal authorities at Fond Du Lac charged yesterday. Two warrants have been issued against the cult. The government officials claim that the cult is a dangerous organization and that it is a threat to the public safety.

## DETROIT

DETROIT, May 15.—Two boys, each of whom is 13 years old, have confessed to the murder of a young woman at Grand Rapids, Mich., that they set fire to the furniture store and an electric company building, recently, causing an aggregate loss of about \$500,000. "We did it for the fun of it," the boys are said to have told the police.

## RECORD NUMBER OF DEGREES CONFERRED

(BY A. P. NIGHT WIRE)  
SAN FRANCISCO, May 15.—The University of California Board of Regents meeting here today voted 233 degrees to be conferred upon members of the senior class of the university on their graduation tomorrow. It was a record number of degrees.

## FLORIDA SENATE BANS WHIP

(BY A. P. DAY WIRE)  
TALLAHASSEE (Fla.) May 15.—Final passage of a bill to ban corporal punishment of convicts in this State was effected today when the Senate refused to reconsider its action yesterday in banning the whip. The bill goes to the Governor.

## FORECASTS FILM IN SCHOOL

Edison Predicts Screen Will Replace Blackboard and Text-books in Teaching  
(BY A. P. NIGHT WIRE)  
NEW YORK, May 15.—The children of today's school children will get their education at schools in which the motion-picture screen will supplant the blackboard and the motion-picture film will take the place of text-books, Thomas A. Edison predicted today at the investigation by the Federal Trade Commission of charges that the Famous Players-Lasky Corporation and six allied organizations constitute a motion-picture trust.

## GIRL CLIMBS LEVIATHAN'S HIGH FUNNEL

Constructor's Joking Dare Prompts Feat as Ship Lies at Berth Being Fitted  
(EXCLUSIVE DISPATCH)  
HOBOKEN, May 15.—Miss Mary Krieg, 17 years of age, of Elizabeth, N. J., says she is the only one of her sex to have climbed one of the funnels of the liner Leviathan. She has just returned to her home after a trip to Newport News, Va., where the big steamer is being refitted. Dared to scale the big pipe, she took the dare and twenty minutes later was at the top, peering down on the U.S.S. West Virginia at anchor nearby.

## OLD ROMAN THEATER IS UNEARTHED

Ferentino Structure, Was Erected in Second Century, Believe Scientists  
(BY CARL EXCLUSIVE DISPATCH)  
ROME, May 15.—Another Roman theater has just come to light at Ferentino, after lying forgotten for centuries. Its discoverer is Prof. Alfonso Bartoli, who places the date of the construction of the theater during the second century after Christ.

## OPEN-SHOP PRINCIPLE IS MAINTAINED

MANUFACTURERS' CHIEF SAYS IDEA MAKES FOR LIBERTY  
(BY A. P. NIGHT WIRE)  
NEW YORK, May 15.—The open shop as a principle promotes the public welfare, John E. Edgerton, president of the National Association of Manufacturers, declared at the open-shop session of the association's convention today.

## MIDDLE WEST NEWS IN BRIEF

(EXCLUSIVE DISPATCH)  
MINNEAPOLIS, May 15.—Mrs. Mary Andrews, 27 years old, 2291 Twenty-second avenue South, and Lorraine Dorothy, her 3-year-old daughter, were killed by carbon monoxide gas while the mother was ironing in the kitchen of her home. The grandmother, who lived on the floor below, found her daughter dead under the ironing board and clasped her as the child died, gasping for breath.

## ST. PAUL

ST. PAUL, May 15.—The first serious forest fire of the season is raging in the St. Mary River section of the Superior National Forest, according to reports from Elk. A crew of twenty men is working to contain the fire, which has covered several hundred acres and which is confined to an old cutting.

## KANSAS CITY

KANSAS CITY, May 15.—Chas. B. Smith, Attorney General, has sent notice to all County Attorneys of Kansas that they should confer with the Sheriff and drive the various bands of gypsies out of the State. The gypsies are traveling over the State, telling fortunes, trading horses or anything else that anyone has to trade. They seldom do any work and frequently cause considerable trouble.

## ST. LOUIS

ST. LOUIS, May 15.—A new "dry" law became effective in Missouri today. The law prohibits the sale of alcoholic liquors in any place where the sale of such liquors is prohibited by the laws of the state. The law also prohibits the sale of alcoholic liquors in any place where the sale of such liquors is prohibited by the laws of the state.

## IMPORTS GAIN OVER EXPORTS

Trade Balance Turns Against United States

Situation is Not Unprecedented, but Rare

Tariff No Bar to Purchase of Foreign Goods

(BY A. P. NIGHT WIRE.)

WASHINGTON, May 15.—The balance of international trade turned sharply against the United States in March, and continued so during April, according to estimates made today by the Commerce Department. The value of March imports at \$402,000,000, and exports during the month at \$414,162,000.

In a supplementary statement the department indicated that customs collections from April imports had been equally heavy and added that during the first four months of the calendar the United States had taken approximately \$30,000,000 more in goods and commodities from abroad than it had sold.

The situation, while not entirely unprecedented in the country's trade history, and while forecast in official and economic discussions during recent months, seldom has been encountered, since the United States, except during rare intervals, has always sold more commodities abroad than it has purchased in foreign countries.

No mention was made of the tariff controversy in the official study, though President Harding some months ago was said to be expecting a turn in the trade balance against the United States and to consider that the tariff had in no way prevented the purchase abroad by Americans of vast quantities of merchandise.

It was also said at the time that

the turn of the balance of trade against the country would have a final result of bringing about the shipment of a part of the monetary gold stock of the United States, which was swelled during and after the war, back to the countries from which it came, and this, it was officially declared, would be a benefit to all concerned. While tending to restore the credit and currency values of the foreign countries, it was asserted, it would also relieve the American monetary position by reducing the quantity of gold, which bankers have asserted to be a force tending toward inflation.

The anticipated gold export, however, has not as yet been disclosed in official figures, though the flow of gold into the United States has been diminishing.

OLD ALBUM MAKES WAY FOR FILMS

Cinema-Camera Record of London Wedding Splendid

Doom of Age-Old Book

(BY CAROL EXCLUSIVE DISPATCH.)

LONDON, May 15.—When a motion-picture camera was used here a few days ago to make a permanent record of a wedding ceremony, the old album was displaced.

As foreshadowed by a writer in the Daily News: "No more will that dreadful half-hour before tea be rendered still more dreadful by an inspection of father in whiskers and a pair of baggy trousers, mother in leg-of-mutton sleeves, Ethel in plaits and broomstick legs and the picnic in the distance."

"All the important episodes in family life will henceforth be filmed. There will be Brother Jim waiting for his young lady from the government, and father, attended by mother, signing the lease for the house. There will be the wedding of father, wearing his ceremonial top hat, paying the water bill, and 600 guests at the baby's christening. Even more intimate records may be kept—Ethel's first proposal, with a close-up of the young man's frenzied efforts to break away."

CONSIDER CAMPBELL FOR MEXICAN POST

FORMER ARIZONA EXECUTIVE RUMORED IN LINE AS AMBASSADOR

(EXCLUSIVE DISPATCH.)

PHOENIX (Ariz.) May 15.—Former Governor Thomas E. Campbell, is in the City of Mexico on a mission said to have diplomatic features, though no intimation of the sort was dropped before his departure hence. It is known that Mr. Campbell is very highly esteemed by President Alvaro Obregon, and there is assumption that his mission has much to do with the prospective recognition of Mexico by the United States.

This is the third trip made this year by Gov. Campbell to the City of Mexico, in addition to a couple of trips to New York and Washington. There is intimation that the former Executive of Arizona is being considered for the post of United States Ambassador to Mexico.

WOMEN WORKERS EARN MEN'S PAY

TWO MOTHERS IN NEW YORK MAKING \$30 AND \$10 AT TRADES

(BY A. P. DAY WIRE.)

NEW YORK, May 15.—Two mothers in overall earning big pay at busy men's jobs were discovered here today.

Mrs. Katherine Nelson, who is 35 years of age and has a son 17 and a daughter 16, earns \$30 a day as an electric welder. She works on skyscrapers, bridges, smokestacks and the like.

Mrs. Florence Thompson, 26 years of age, is a bricklayer—the product of a school for artisans conducted by her husband. When she works at the trade, which is whenever she needs a new hat or gown, she draws the prevailing wage, \$10 a day and up.

In her native Denmark, Mrs. Nelson was a machinist's apprentice in her husband's shop. When he died she came to America.

CALIFORNIANS WED OUTSIDE OF STATE

(EXCLUSIVE DISPATCH.)

KINGMAN (Ariz.) May 15.—Kingman is becoming an Arizona Green. Out of nine marriage licenses issued in one day, eight were for California couples.

Superior Judge E. Elmo Bollinger married the following couples: John Hall of Coconino county and Barnadine McNut; Los Angeles; William Mansell and Mary L. Price of San Bernardino; Jose Armento and Guadalupe Salazar of Needles; and Jose Acosta and Enriqueta Yanes of San Bernardino.

## PLOT TO FREE "BIG TIM"

(EXCLUSIVE DISPATCH.)

CHICAGO, May 15.—An anonymous letter received by Chicago newspapers today asserts that a fund of \$50,000 to secure the release of "Big Tim" Murphy from the Leavenworth penitentiary is being raised by his wife and former associates in the labor movement.

The writer says he was approached by Mrs. Murphy and Ralph O'Hara, described as "Big Tim's" bodyguard, and asked to contribute to the fund. He says he was informed that \$37,000 has already been raised and was shown

## NEW WELL STRUCK ON NAVY LAND

Teapot Dome Oil Reserve Scene of Strike Given as 4000 Barrels a Day

(EXCLUSIVE DISPATCH.)

WASHINGTON, May 15.—An oil well with an estimated production of 4000 barrels per day has been brought in on the Teapot Dome naval oil reserve in Wyoming, the section where a detachment of United States Marines were used last year to stop trespassing, according to information received by the Interior Department today.

The well was brought in on Sunday and allowed to flow uncontrolled for seven hours, during which time connections were installed. It is near Teapot Dome, given that name because the Mutual Oil Company started drilling it and operations were not stopped until Marines were sent to the scene.

A lawsuit between the Mutual Oil Company and the Sinclair interests now in progress over the lease to this particular district, with the result that the oil produced will be impounded from sale. The government, according to the arrangement, will receive temporary receipts covering its share of royalty oil produced by the new well.

## Why So Pretty?

Analyze a beauty's beauty

Note how white teeth count

If you ever envy pretty teeth, let us show you how folks get them.

You see them everywhere today. They have brought to millions new charm and new beauty.

It is so the world over, for people are using a new cleaning method now. And largely by dental advice.

They fight film

Film makes teeth dingy—that vicious film you feel. It clings to teeth, enters crevices and stays.

Food stains, etc., discolor it, then it forms cloudy coats. Tartar is based on film. That's why beautiful teeth were seen less often than now.

Film also holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to

cause decay. That's why tooth troubles came to nearly all.

Germes breed by millions in film. They, with tartar, are the chief cause of pyorrhea, now so alarmingly common.

Old ways inadequate

No ordinary tooth paste effectively combats film. So nearly everybody suffered more or less.

Then dental science, after long research, found two film combatants. One acts to curdle film, one to remove it, and without any harmful scouring.

## CLIQUE ACCUSED OF PRICE-FIXING

Oshkosh Lumber Association  
Faces Federal Guns

Present Figures Higher Than  
War Peak, Says Paper

Some Members Indicate Fear  
of "Robbers" Epithet

BY GRAFTON WILCOX  
(EXCLUSIVE DISPATCH)

WASHINGTON, May 15.—The Federal Trade Commission today issued a report of its investigation into the activities of the Northern Hemlock and Hardwood Manufacturers' Association, Oshkosh, Wis., in which it is charged that the association, which controls 60 per cent of the production of hemlock and hardwoods in Wisconsin and upper Michigan, has been conducting largely as a price-fixing organization for more than twenty years.

The report, asserting that present prices are higher than war prices, declares that the association was conducted largely as a medium to facilitate agreement among its members for the substantial lessening and frequently the destruction of price competition.

"It is clear," the report states, "that officials and members of the association endeavored to anticipate, fix and control prices for the future."

ALL PERIODS STUDIED

While the report covers the activities of the association up to 1919, effects on the present situation are also discussed. Present prices, as of March 31, on Wisconsin hemlock are declared at their highest peak and on better grades of hardwoods 60 per cent higher than in the fall of 1918.

"Association leaders," the report says, "in their ordinary official in-

## FAVORS DRY LAW CHANGE

(EXCLUSIVE DISPATCH)

PHILADELPHIA, May 15.—"Congress will have to modify the law," said B. Ogden Chisolm, capitalist, philanthropist and prison authority of New York, at a luncheon of the Molly Pitcher Club, "if we overcome some of the evils of the Eighteenth Amendment it will be for the women."

"It is unfair and unjust law. The men responsible for the measure lost sight of one quality of human nature—a desire for reasonable enjoyment coupled with an unquenchable thirst."

As a worker in prisons I ought to be bone dry, according to those who think they know. I can honestly say prohibition is the greatest crime booster the country has ever seen."

He declared Rhode Island had a 100 per cent in prison population last year, and Colorado, Kansas and Nebraska more than 50 per cent.

shall countenance a price of this kind."

During the excited market of 1919 a prominent member wrote that "it seems inevitable that we will go into the class of profiteers" and "we will be painted for years to come as conscienceless robbers."

HAWAII LEGISLATOR IS  
FINED ON WET CHARGE

DRY AIDE WAITED UNTIL  
HOUSE SESSIONS CLOSED,  
THEN NABBED VICTIM

(BY CABLE AND ASSOCIATED PRESS)

HONOLULU, May 15.—W. K. Husey, member of the Territorial House of Representatives, today pleaded guilty in Federal court to violating the national prohibition law and was fined \$25 and costs. Both the fine and costs were remitted.

A prohibition enforcement officer testified that on March 5 last he saw Husey with a bottle of liquor. Because the Legislature was in session Husey was immune from arrest and the prohibition agent did not forget and as soon as the session adjourned he arrested the Representative.

Husey, a native of Hawaii, served with the British forces prior to America's entry into the late war. He was later transferred to the American Army.

NEW CLINIC OPENED

After careful study of glandular therapy, a local surgeon will open a clinic here for treatment, including the glandular system, in the California State Hospital, June 15, 1923, from 1-5 p.m.

## ANGLO-RUSSIAN BREAK DELAYED

Debate in Commons Shows  
Settlement Hope

Negotiations With Krassin to  
Start Soon

Government Stand Approved  
by Lloyd George

(BY CABLE AND ASSOCIATED PRESS)

LONDON, May 15.—The outcome of the eagerly awaited Russian debate tonight in the House of Commons was the announcement that there would be no immediate breakdown between England and Russia, but that negotiations would be started through Leonid Krassin, who was in the gallery listening to the debate.

Ronald McNeill, Undersecretary for Foreign Affairs, announced on behalf of the government that Foreign Secretary Curzon was prepared to enter into discussions with Krassin, and that, in order to enable the latter to communicate with his government in Moscow the time limit mentioned in the British ultimatum to the soviets would be reasonably extended. But, he added, this should not be taken to mean that the British would be satisfied with anything less than compliance with their demands.

LLOYD GEORGE APPROVES  
Former Premier Lloyd George expressed satisfaction with the announcement and said he thought the government had taken a wise decision.

J. Ramsey MacDonald, leader of the opposition, opened the debate with a strong attack upon the government's policy, in which he attributed all the troubles between England and Russia to the failure to recognize the soviet government. He invited the government to produce documentary proofs of its charges against the soviet, and maintained that the Russian reply

## Thousands of Jobs

are offered every week in the "Help Wanted" columns of The Times—jobs for men and women—outdoor and indoor jobs—city or country jobs—jobs for experts or beginners. No matter what position you may be suited for, you can find employment in the "Help Wanted" columns of Los Angeles Times want-ad newspaper.

"Help Wanted" advertisements in The Times are conveniently classified, another reason why everybody in Los Angeles reads

**Times Want Ad.**  
First in the World

opened the way for a settlement through an international conference.

McNeill, in reply, strongly repudiated the suggestion of hostile intentions toward Russia. He declared that the government might have a cause belli of its grievances, but such an idea had never to a moment been entertained. The government did not desire to destroy the trading agreement between the two countries, but simply to insure its proper observance.

ENTIRELY UNSATISFACTORY  
Except on the single point relating to the rights of British fishermen, the Russian reply was entirely unsatisfactory and the government could not admit that the invasion of British rights in this matter could be met by holding an international conference on the question of settling disputes with regard to territorial waters limits all over the world.

The government's concession took much of the sting out of the subsequent debate, in which Lloyd George provoked hearty laughter by declaring that Tchitcherine, the soviet Foreign Minister, was not a revolutionary in the commonly accepted use of the term, but was really "a great aristocrat as Curzon."

The former Premier maintained that Bolshevism was a passing phase and that the government ought to realize it was something much more permanent than Bolshevism that they were up against. They should, therefore, take advantage of the present opportunity for conversations.

Former Premier Asquith expressed a desire to associate himself with everything Mr. Lloyd George had said.

WASHINGTON SOCIETY  
VISITS HORSE SHOW

HIGH OFFICIALS ALSO TURN  
OUT TO SEE PRIZE STEEDS  
PASS IN REVIEW

(EXCLUSIVE DISPATCH)

WASHINGTON, May 15.—Social and official Washington turned out en masse here today, despite gloomy clouds, for the opening of the National Capital Horse Show. Almost every embassy and legation in Washington was represented, and leaders in Washington social circles were among the box holders.

Entries numbered horses from the stables of many prominent men and women in the district, and several horses from Fort Myer, ridden by officers and in a few instances buck private, passed in review before the judges.

Brig.-Gen. Mitchell captured the ribbons in the class for officers' chargers. Fifteen horses were entered in this event, which was open to all nations and branches of the United States service.

The Vinton stables captured the light-weight green hunters' event, taking the blue ribbon over seventeen other entries. In this class horses from some of the best-known stables in the East competed.

One event that created great interest was that in which park saddles horses competed. Of seventeen entries, all horses ranking high, many having captured ribbons at other shows, Princess Pavine, owned by Henry L. Conda, captured the blue ribbon.

J. O. HAYES APPOINTED  
REGENT OF UNIVERSITY

GOVERNOR PICKS SAN JOSE  
MAN BECAUSE OF INTER-  
EST IN FARMING

(BY A. P. NIGHT WIRE)

SACRAMENTO, May 15.—Gov. Richardson today appointed J. O. Hayes of San Jose as regent of the University of California to succeed Charles S. Wheeler, who died recently. In appointing Mr. Hayes the Governor made the following statement:

"My principal reason for appointing Mr. Hayes a member of the State Board of Regents of the University of California, besides his splendid qualifications, is the fact that he is a prominent horticulturist of Santa Clara Valley and has been actively identified and interested in agricultural pursuits. The co-operative marketing bill, Senate bill No. 55, which I recently signed, was backed by him with all his enthusiasm and power, and he was largely instrumental in the passage of this splendid piece of legislation. I felt it necessary at this time to appoint someone actively interested in agriculture, and I believe that Mr. Hayes fills the bill. He is a man of education, refinement and means and has the time to devote to voluntary service of this kind."

The Governor also appointed J. E. Olmstead, publisher of the Palmdale Argus, to succeed C. L. Neumiller on the State Prison Board.

The appointments were sent to the State Senate for confirmation, which was promptly accorded without a dissenting vote.

ARIZONA REDISTRICTED

(EXCLUSIVE DISPATCH)

## The WIRE TAPPERS

by Arthur Stringer

SYNOPSIS OF PREVIOUS INSTALLMENTS  
Jim Durkin seems his living as a telegrapher. He has been in the wire tapping business for some time and has been successful in his business and has been successful in his business and has been successful in his business.

CHAPTER XIII  
As a result of her midnight conference with Durkin, Frances Candler learned many things. One of these was the fact that the life into which she had flung herself was proving a caper that already threatened to end in a cruelly impossible ransom. Another was the discovery that Durkin stood even deeper than she did in those conspiratorial quicksand from which she saw, he had been a quiet, observant, intelligent, and resourceful agent of a new kind of activity toward which she had not even thought to glance.

For after that hurried midnight talk she knew that the Secretary of Agriculture, at Washington, from time to time received sealed mail reports from the South as to the condition of the cotton crop. She also learned that there had been a series of startling and disastrous "leaks" from these confidential government reports, and that private wire now connected the office of the department with Savannah and New Orleans. Durkin had already made sure, on the main street of the little town through which this wire ran stood a ramshackle, three-story wooden hotel. From the top floor of this hotel every wire that went humming like a harp of haste through that avenue of quietness was easily accessible. Any person enlightened and audacious enough to pick it out from among its companions and attach to it a few feet of "No. 12" and a properly graduated relay would find the rest of his task astonishingly easy. As Durkin had pointed out, already knowing what they did, the one great problem lay in getting unsuspected into the third-floor

room of that wooden Leeksville Hotel.

With a jointed split-bamboo fishing-pole, nearly as long as a parasol cover, and with her complete wire-tapping outfit as neatly packed away in a dress suit case, Frances Candler, ten hours later registered at that ancient and unsavory-looking hostelry. A weary and bedraggled theatrical company, which had just made the late "jump" from Fredericksburg, preceded her, and she made it a point to approach the desk at the heels of a half a dozen noisy chorus girls.

There she asked for a top-floor room.

The overbearing clerk insisted that she should go anywhere but on the top floor. There would be no difference in the cost of the rooms, to her. He would make that, indeed, a personal matter.

"But I prefer the top floor," she maintained, biting her lip, but giving no other sign of her indignation.

The clerk insisted that the climb would be too much for her, and most of the floor, he explained, was given over to the servants.

"But I sleep lightly—and I must have seclusion!" The perturbed clerk protested that in Leeksville noises were unknown by day, must sleep by night.

A circle of cotton-fiddlers now stood behind her, taking in the scene. A flash of inspiration came to her.

"I've got to go up to the top, I tell you," she cried, impatiently. "Can't you see I've got to go up to the top, I tell you."

And the angry, asthmatic woman in the heavy veil was finally surrendere to the long and a discomfort of her southwest corner room on the barren and capless third floor.

There she quietly unpacked her suitcase, joined her pole of split bamboo, attached and graduated the relay, and flung herself down the essential thread of metal along which were to flash the departmental cotton reports, to New Orleans and Washington.

There, hour after hour, she sat and waited and watched, and it was late in the next morning when, white and worn-out, she detached the unobtrusive wire, hurried off her brief dispatch in cipher, ordered breakfast up to her room, and even before undressing fell into a long and restless slumber.

That day, in her narrow little room, she dreamed that she and Durkin had tunneled under the Potomac River and had carried away the last ounce of gold from the United States Treasury. How many millions they had taken it was beyond them even to count.

But she knew they were in submarines and were being breathlessly pursued by the entire North Atlantic Fleet. And her one great fear, during all that agonized and endless pursuit, seemed not that she was destined either to final capture, or to final suffocation, but that, in some way, she might become separated from Durkin.

Durkin waited, with the receiver at his ear. Once more the signal-bell shrilled and cleared its curiously hurried warning. A vague yet nasal and half-impatient voice murmured brokenly out of some where to some one: "You've connected now—go ahead."

Then came a grating rasp and a drowsy, metallic click or two, and out of the stillness there flooded in to his waiting ear the spectral, filtered music of an anxious "Hello"—fuzzy, mellow, far away.

It seemed to him then, under the stress of his gaze—a noise, that a two-voiced presence had answered the word to him. Suddenly, for the first time in his life, the miracle of it all came home to him, the mystery of that master of that tenuous instrument, which could guide, and treasure, and carry to him through the night the very tone and timber of that one familiar voice, flashing it so many miles through star-hung forests and over hill and valley, threading it on through sleeping towns and turbulent rivers, and carrying it through wind and water unerringly home to his waiting ear.

"Hello!" the anxious contralto was asking again.

"Hello?" cried Durkin, pent in the little bell speaking-closest yet his face illuminated with a wonderful new alertness. "Hello! Is that you, Ripple?"

**Pasadena Furniture Company**

**New Dining Furniture**  
Quality isn't sacrificed on the altar of price in the dining suite pictured above, nor price forgotten in the attainment of quality.

There is an even and just distribution of both which will win the approbation of the most discriminating person.

To interest you in our splendid new line of dining furniture, we offer all of the above suite and some others at special reduced prices for a limited time.—Sixth Floor.

**The Living Room Pieces Pictured**

**Had Rheumatic Eczema So Bad**  
Could Not Appear in Public  
**Hokara Quickly Heals**

"I want to say that I suffered the most awful agony from what the doctors called Rheumatic Eczema. The inflammation and pain was so intense that almost boiling water had no effect and only felt blood weas on my face. I could get no sleep and was continually groaning with pain. My doctor gave me several remedies in the way of greasy salves which had the vilest smell on earth but I got little relief and could not appear in public. My druggist advised HOKARA. I tried a small jar and got immediate relief. It will do all and exactly what you claim for it and I am willing to answer any inquiry concerning it." Signed, A. C. P., Portland, Maine.

If you or any relative or friend suffer with severe skin trouble, don't think it necessary to use some greasy, ill smelling ointment that at the best can only give temporary relief. Get a bottle of Hokara on the money back if dissatisfied plan. Most every drug store can supply you.—(Advertisement)

**PAIR ARRAIGNED FOR THEFT DENY IDENTITY**  
COUPLE ARRESTED IN PHOENIX FACE PENNSYLVANIA CHARGES

(EXCLUSIVE DISPATCH)  
PHOENIX, May 15.—This afternoon, before the United States Commissioner, bail bonds of \$10,000 and \$25,000, respectively, were demanded of the man and woman believed by the police to be Andrew L. Hepler and wife, wanted in Butler, Pa., on charges of embezzlement from two corporations. They had been "held under the Mann Act, but this charge was withdrawn by the Federal authorities. They still insist their names are White. They had been living for some time in a cottage east of the city.

The man was brought to the attention of the Sheriff's office by irregularity in the license plates of a car he had been driving. These plates had been issued in Mohave county for a sum of \$100,000, which he had been found to have in his possession. It has been found that the man has a deposit box in a local bank under the name of W. H. Henry. An order of court may be issued to open this in the hope of getting additional evidence. Finger prints have been taken and photographs are on the way here from Pennsylvania. Telegraphed descriptions are said to identify the couple clearly.

While standing on the bank of an irrigation ditch on his farm near Tempe, Thomas H. Barnes fell forward in a fit and was drowned in three inches of water. He was 51 years of age and leaves a widow and a son.

A telegram from Grand Canyon tells of the death at that point of Roy A. Perry of Phoenix, who has been employed as engineer of the El Tovar Hotel. The message states that a Coroner's jury decided he had been accidentally shot. He is survived here by a widow, two sons and a daughter, Mrs. Elizabeth Clay, colored, convicted of assault with a deadly weapon in connection with the death of Pearl Borders, had been sentenced to five years imprisonment.

**ENOX**  
**KILLS MOTHS**  
**WILL NOT STAIN**  
**Use it NOW. Save your fine clothes**

Spray Enox on the garments, furs and woollens you are packing away. Also spray your rugs, carpets and upholstery and you will kill every moth. What's more important, you will kill every moth worm and every moth egg.

Enox is safe to use. It will not stain or injure or effect the dyes of the most delicate fabrics, furs and feathers. It is the original guaranteed moth killer which has been used for twenty-five years in millions of homes.

A pint of Enox \$1. Sprayers 60c and \$1. Your drug, department, hardware, or housefurnishing store has it.

CITIZENS SCORE  
OUTLAW UNIONS

Men Who Repudiated Landis  
Award Are Hit

No Compromise Is Verdict of  
Chicago Body

Labor Federation in Plea for  
Compromise

(EXCLUSIVE DISPATCH)  
CHICAGO, May 15.—No compromise with the unions that repudiated the Landis award will be given, the Citizens' Committee to Enforce the Landis Award declared today in a letter answering one from John H. Donlin, head of the building trades section of the American Federation of Labor.

Donlin, in a letter to E. M. Craig, secretary of the Building Construction Employers' Association, asked that the thirteen unions which repudiated the award be taken back into the fold and not punished for their rebellion.

Mr. Craig's reply to the request follows in part:  
"When the public was asked for help in November, 1931, by the contractors who were fighting to establish the Landis award, the citizens' committee told the contractors that the only basis upon which the public could be interested was a fight not to compromise, but for a permanent clean-up. These conditions were accepted in writing by the contractors."

"Every union, with the exception of the carpenters, who were already on the open-shop basis, was begged and beseeched by the committee to accept the award. International presidents were brought here to persuade the local unions. The unions were told that their failure to return to the award would mean a permanent open-shop status, but with one exception the insurgent unions in the present open-shop trades flouted the award."

"Mr. Donlin asked the citizens of Chicago to forget and forgive. The citizens' committee cannot forget that the building industry for the last thirty years has been one series of controversy and compromise; that there is not a larger center in the country where the building trades are 100 per cent unionized than conditions are not similar to those that prevailed in Chicago before the citizens' committee was organized; while in those communities where the industry is not completely monopolized by union labor, conditions are fair, building is uninterrupted, and costs are lower."

"The committee believes that to make contracts with any one of the unions in trades now open shop, and thereby returning the monopoly of that trade to such unions, would mean that within six months the entire industry would again be solidly unionized, the conditions would be even worse than they were two years ago, and all the time and money spent in the effort to clean up the industry would be wasted."

"The citizens' committee stands firm to its policy that contracts should be renewed with the nineteen unions which have stood loyally to their pledge with the Landis award, but the fourteen trades which repudiated the award should not again be given control of their industry, and will continue its aid and support to all contractors who follow out this policy."

Wet Forces in  
New York Wait  
Liberty Signal

(EXCLUSIVE DISPATCH)  
NEW YORK, May 15.—The Mulan-Gage prohibition enforcement act is to be wiped off the statute books. Persons who have been with Gov. Smith and are known to enjoy his confidence feel so certain of this that today they are offering to bet any amount at 2 to 1 that he will sign the thirty-day repeal bill before the thirty-day period expires, which will be on June 4.

Although Gov. Smith unexpectedly has shortened his stay at Atlantic City to come to New York, he is noncommittal on the bill.

PRISON CAMP HEADS  
TAKEN INTO CUSTODY

TWO ACCUSED IN NEGRO'S  
DEATH SURRENDER TO  
MARSHAL

(BY A. P. NIGHT WIRE)  
TALLAHASSEE (Fla.) May 15. Walter Higginbotham and William Fisher today surrendered to a United States deputy marshal who held Federal warrants against them charging conspiracy in connection with the asserted ill-treatment of a negro in the Putnam Lumber Company of Clara, Fla. They were released on bail of \$25,000 each. Higginbotham was whipping boss of the Putnam Company. Fisher is now superintendent of the company. The negro, it is charged, died as a result of his treatment at the camp.

Higginbotham is scheduled to go on trial at Cross City Friday on the charge of first-degree murder. He was indicted a month ago in connection with the death of Martin Tabert of North Dakota.

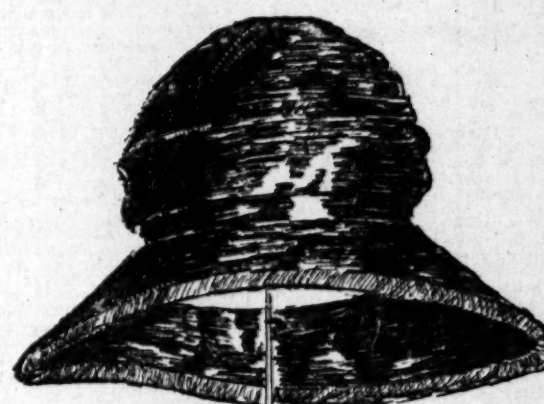

ALIEN SLACKER BARS  
ARE TO BE REMOVED

NEXT ARMISTICE DAY ENDS  
BAN ON THEIR BECOMING  
AMERICAN CITIZENS

(EXCLUSIVE DISPATCH)  
WASHINGTON, May 15.—November 11, 1922, will be the fifth anniversary of the armistice, and on that day the bars will be let down and approximately 50,000 aliens who refused to fight for the

—all the season's leading straws—timbo, milans, hair and timbo combinations, legal, many body hats and even leghorn

Hundreds and hundreds of them! In all the wanted shapes, such as bustle-back effects, cloche, large mushroom, small mushroom, pole large broad-brimmed hats. Shapes that are tically complete in themselves, requiring wreath of flowers or fruits for trimming.

New Flower and Fruit  
Wreaths, Companion Values 1.95

## Silks for the Bride

—and for the graduate, too  
—just a few values here!

White Canton Crepe, 2.95

A value extraordinary! For the bride costume, whether elaborate or simple in design. And should the bride in her trousseau the white pleated skirt of Summer find its cost much less than expected if fashioned of this at 2.95.

40-Inch Crepe de Chine, 2.25

A quality that is being chosen for much of the trousseau. Dainty, practical, at Hamburger's value price—why not be the favorite of many?

40-Inch Charmeuse, 3.50

Fine, soft—lending itself a lovely way for the bride or graduation frocks. Another still better priced 4.50 a yard.

(Hamburger's—Main Floor)

## Summer Lingerie

—priced the Hamburger value way

Crepe Pajamas, 1.95

Cool and soothing after a warm day. Two-piece styles—simply but daintily made—a joy to wear and wonderfully easy to launder. No small consideration in hot weather. Other crepe pajamas, 3.50 and 4.95.

Chemises, Vests, 1.50

More crepe lingerie that will do much to simplify the summer laundry problem. Chemise in step-in and envelope style—vests and drawers to match. Other styles priced 2.50.

(Hamburger's—Second Floor)

## Madeira Linens

—we bought an importer's entire stock at prices which mean great savings to you.

Madeira linens of the loveliest! Exquisitely hand embroidered and at low prices that will bring a joyous sparkle to the eyes of the bride-to-be and the bride of June gone by.

Napkins, doz. 5.95

A very obvious "special"—a fine quality of linen, daintily patterned and embroidered. 12-inch size. Other patterns, other sizes, priced accordingly.

Madeira Centers, 1.50

15 and 18-inch sizes—seems impossible, does it not? But here it is—a streak of good fortune brings us this limited number. Some very lovely 18 and 24-inch centers. 2.50 and 3.75.

Table Covers, 25.00

Compare them with covers (72-inch size) costing twice this price. It will give you an idea of the extraordinary value of these. Wide assortment of patterns.

(Hamburger's—Main Floor)

WEDNESDAY MORNING

# Men, Women and Things in the World's News

Robert Cecil sails after delivering twenty lectures in the United States on the League of Nations.

A rescue at sea. Twenty-three survivors of the ill-fated collier Seaconnet (shown in center in lifeboat,) which went down in a seventy-mile hurricane off Massachusetts coast, are taken aboard United States lightship tender Anemone (left). The Vineyard Sound lightship, which aided in the rescue, is shown at the right in this photo, which was taken from the deck of the United States Coast Guard ship Acushnet.

Kidnaped boy is safely home. Six-year-old Verner Alexanderson, shown here with his father, E. F. W. Alexanderson, chief engineer of the Radio Corporation, was kidnaped by two men who promised him rabbits. The wireless was called into play to find the missing child, and he was located at Schenectady, N. Y., where he had been left in the care of a woman who was surprised to find he had been kidnaped.

Mrs. Robert Livingston of New York is only woman contestant in Travers Island (N. Y.) trapezoidal meet.

Eddie Meehan, New York's boy Mayor for a day, is congratulated by Mayor Hylan following Boys' Week parade.

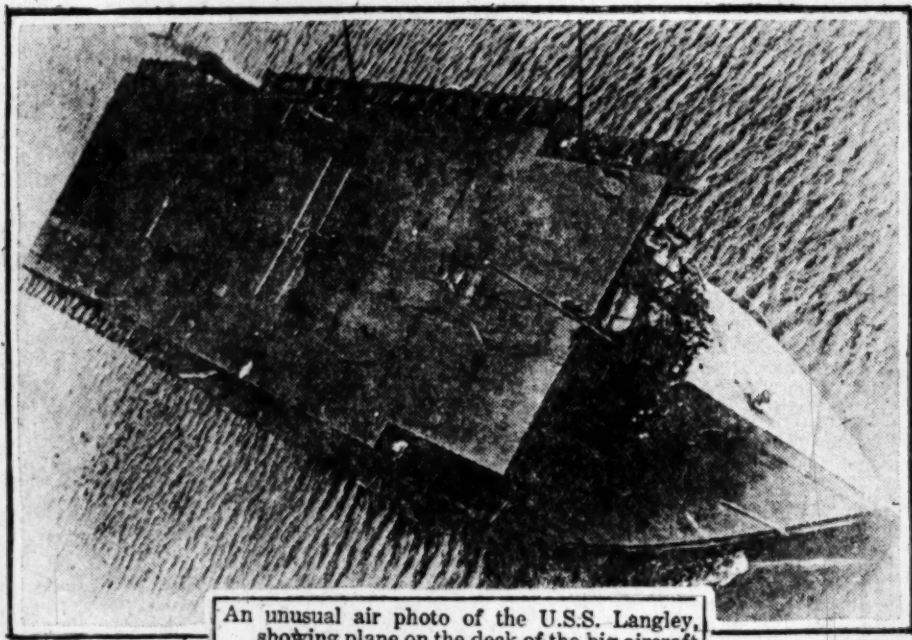

Keep the pot boiling in Japan. The Salvation Army has gained a strong foothold in the Mikado's kingdom.

High water. Flood scene in West Feliciana Parish, La., when the Mississippi broke through the levees.

Former Navy secretary visits old haunts. Josephus Daniels (center,) with Admiral Washington (left,) who is to command the Asiatic Fleet, and Admiral Robertson, new commander of the Eleventh Naval District, with headquarters at San Diego.

An unusual air photo of the U.S.S. Langley, showing plane on the deck of the big aircraft carrier ready for the jump off.

New government appointees take posts. D. R. Crisinger, new governor of the Federal Reserve Board (left,) and Henry M. Dawes, new Comptroller of the Currency.

Luis Angel Firpo, the hard-hitting South American (left,) exchanging blows with his sparring partner, Al Reich.

## RADIO USED IN ORANGE MAN HUNT

Description Broadcast as Officers Watch Roads, but to No Avail

(EXCLUSIVE DISPATCH.)  
ORANGE, May 15.—Radio played a prominent part, though to no avail, here last night when a squad of officers and civilians headed by City Marshal M. J. Jensen combed the surrounding country in an effort to apprehend the burglar who, earlier in the evening, entered the home of the Zellers, escaping with jewelry valued at \$200. While a description of the intruder was being broadcast, the searching squads watched every highway leading out of the city.

The plunder was small, owing to the fact that the thief was frightened by the return of Mrs. Zeller, finding the front door locked, and to the rear for admittance. As she reached the corner she came face to face with the stranger, who presumably had come from within the house.

"Good afternoon, are the folks out door at home?" she asked Mrs. Zeller, politely smiling.

After receiving a reply the man continued:

"Will their dog bite a stranger? Is certainly not like he might. Then he departed, leaving Mrs. Zeller puzzled but not suspecting anything amiss. The robbery was discovered when she entered the house and was directed to the bedroom by a strong odor of moth balls. She found her jewelry case empty, a trunk containing valuable papers scattered, and a rear door was gained through a rear door by the use of a pass-key.

## Minister Will Tour Europe on Missions Work

(EXCLUSIVE DISPATCH.)  
REDLANDS, May 15.—Dr. Selwyn W. Cummings, member of the faculty of the University of Redlands, supply pastor of the Presbyterian Church, although he is a Baptist minister, leaves tonight for Europe for the national council of foreign missions. Dr. Cummings, formerly pastor of the Baptist Church at Pasadena, is occupying the vacant chair in Bible and mission at the university.

He goes to take the greetings of the national council to the field in Europe and he will be gone for the summer, returning in time to take up his work at the university in the fall.

Dr. Cummings will sail from New York the last of the month on the Laurentia and goes first to London. From there he will go to Paris and Stockholm, where he will spend about six weeks, speaking in various places in the two countries.

From there he will go to Stockholm, where he will spend about six weeks, speaking in various places in the two countries.

## DELEGATES FLOCK TO BEACH

Identification Chiefs' Annual Convention to Open Tomorrow; Many Are Expected

(Times Staff Correspondent)  
LONG BEACH, May 15.—Delegates from all over the State were pouring into Long Beach today for the ninth annual convention of the California State Division, International Association for Identification, which starts at 2 p.m. tomorrow at the Hotel Virginia.

Among those who arrived in advance of the convention were: Hart Schrader, Jr., handwriting and identification expert of the State Bureau of Identification at Sacramento; Clarence Hauser, superintendent of the Fresno County Bureau of Identification; C. S. Merrill, Superintendent of the State Bureau of Identification; Charles Stone, chief of police of Bakersfield, and R. A. Abbey, expert of the Berkeley Police Identification Bureau.

The convention lasts until Saturday when it will close with election of officers. The annual banquet will be at the Hotel Virginia Friday evening. A feature of the week will be a school of instruction in charge of Mr. Schrader, assisted by Mr. Abbey.

Demonstration of identification problems by means of actual cases will be made and the most modern identification apparatus will be shown and operated for the benefit of the delegates.

Handwriting, identification problems will be discussed also in the school.

Senator R. H. Cameron of Arizona will preside at the opening of the convention by means of a balance of the afternoon session will be taken up with the address of the credentials committee and seating of delegates.

At 7:30 p.m. there will be addresses on "The Value of Finger Prints" and "The Value of the Hand."

After receiving a reply the man continued:

"Will their dog bite a stranger? Is certainly not like he might. Then he departed, leaving Mrs. Zeller puzzled but not suspecting anything amiss. The robbery was discovered when she entered the house and was directed to the bedroom by a strong odor of moth balls. ## PREPARED TO DO THEIR BIT IN WORLD OF SUFFERING

Octet of Graduates From Training School at Long Beach

Graduating Class, Seaside Hospital School for Nurses. Left to right—Top row, Margaret Elizabeth Davis, Mildred Frances Warner, class president; Gladys Pritchard; center row, Beale Irene Munn, (standing) Miss Alice G. Henninger, superintendent of the hospital; Miss Mary K. West, superintendent of the nurses' school; Mary Naomi Curtis, Justine Eunice Arnold. Bottom row, Ada Grace Purrier and Margaret Kelsey.

LONG BEACH, May 15.—The first Methodist Church here was crowded tonight by Long Beach folks who witnessed the commencement exercises of the 1923 graduating class of the Seaside Hospital School for Nurses. Eight young women who have completed their course of training at the school, were given diplomas by Dr. I. Frank Stouch, pastor of the church. The presentation of the class was made by Miss Mary K. West, superintendent of the nurses' school.

Features of the program were a vocal selection by Dr. Thomas L. Rogers, police surgeon; a violin solo by Virginia Hibbard, and piano solo by Laurie Hazel and an organ number by Miss C. C. Chubb.

The members of the graduating class are Miss Mildred Frances Warner, class president, and the Misses Margaret Elizabeth Davis, Gladys Pritchard, Beale Irene Munn, Mary Naomi Curtis, Justine Eunice Arnold, Ada Grace Purrier and Margaret Kelsey.

The two fliers, who wrote a thrilling chapter in aviation when they flew from New York City to San Diego two weeks ago without landing, will receive the congratulations of the community at a luncheon Sunday afternoon at North Island.

When Secretary Weeks comes ashore Sunday morning he will be welcomed by prominent citizens and ranking officers, while a bodyguard of cavalry from Camp Kearny and a company of blue-jackets from the destroyers will escort him to an uptown hotel.

A brief inspection of the Marine Brigade Post, Naval Training Station, Fort Rosecrans and the North Island aviation station will be made by the secretary after his departure. The Grant will sail for Los Angeles Harbor Sunday night.

The music was from a little song he had heard a little Tyrolean maiden sing. Henry Bishop wrote a transcription which was published in the musical production of a brother of the well known Will L. Thompson. After the latter was away, it was published as new, by the later author, but almost duplicated the productions of the originator.

"John Howard Payne died in Tunis. His body was after some years removed and brought home by the well known founder of the W. W. Corcoran Library in Washington, D. C."

CHILDREN GIFTED  
The brother of John Howard Payne—left one son. In the family records show, Mr. Payne stated, "that John Howard Payne was in his day a remarkable musical composer, having written more operas, than at one time or another presented publicly, than any other composer of his day or before him time. 'Home, Sweet Home' was a part of the opera 'Clari' or 'The Maid of Milan.' He had written the words of 'Swissländler' or northern Italy during a period of homesickness."

GETTING COOLER IN VALLEY  
Imperial Growers Say Cantaloupe Crop Will Be Delayed Some

EL CENTRO, May 15.—Imperial Valley coats were recovered from the closets where they were placed two weeks ago, and dusted off for use following a gradual drop in the mercury in the last few days.

Thermometers last week registered 104 to 110 degrees. This week they are showing a maximum of 90 deg. with a cool breeze from the mountains to the west and cool temperatures in the night.

Growers assert the drop in temperatures will result in several days of delay in the first shipments of cantaloupes in commercial quantities.

TOES CUT OFF  
VENTURA, May 15.—George Truitt, oil worker, lost all the toes to his feet when a length of casing fell edge-down across the member.

## BUSINESS NEWS OF BUSY MARTS

**Intercoastal Shipping Rates Get Fresh Shake-up**

**Santa Fe May Invade Mexico, Latest in Rails**

**New Europe to Los Angeles Service Announced**

Pressing a continuation of the

unsettled in steamship rates on

intercoastal traffic and eliminating

nearly all possibilities of an agree-

ment through the formation of the

proposed Atlantic Intercoastal Cen-

terference, the American-Hawaiian

Steamship Company announced

yesterday through McCormick, Mc-

Pherson & Lapham, local agents, a

new schedule of increased rates on

goods transported from the Pacific

Coast to the North Atlantic and

Gulf of Mexico ports.

The new rates are effective July 1,

and will remain in force for a

year. They apply to all commodities

from the ship's side of the American

Company's loading piers at Seattle,

Tacoma, Portland, San Francisco

and Port Los Angeles to ship's side

at the company's discharging piers at

Boston, New York, Philadelphia, Baltimore,

Charleston, Savannah, Mobile and

New Orleans.

Shipping men say that there had

been an informal agreement among

the steamship companies not to

make forward contracts for freight

shipments before July 10. Prior to

that date, the Atlantic Intercoastal

Conference was to have been

formed with the assistance of

Chairman A. D. Laker of the

United States Shipping Board, and

rates fixed for the coming year, to

which all companies were to adhere.

It is understood that the

proposed schedule called for rates

higher than the 25 per cent average

increase announced by the American-

Hawaiian Steamship Company.

The higher tariff is caused by

the advance in operating expenses

resulting principally from the higher

wages paid to seamen and the

heavy amount of goods seeking

water transportation. The steamship

companies operating on the Pacific

Coast are said to be flooded

with eastbound business, and are

booked far in advance.

Steamship men here say that

both the proposed conference and

American-Hawaiian Steamship

Company rates are intended to be

low enough to counteract the

recently reduced transcontinental

rail rates to provide them

with the business they consider

legitimately belongs to water

carriers.

**SANTA FE IN MEXICO**

Officials of the Atchison, Topeka

and Santa Fe Railway here have

no knowledge of the report that

the company is about to acquire

the old Mexican Central system

now operated as part of the Na-

tional Railway of Mexico. The

rumor is carried in the current is-

sue of the Railway Age, and is to

the effect that the Santa Fe will

operate the Mexican Central sys-

tem, running from El Paso to Mex-

ico City, under a lease arrange-

ment. The Mexican government has

continuing to own a majority of

## DAILY MARKET LETTER OF THE NEW YORK COMMERCIAL

**NEW YORK, May 15.**—Ten thousand five hundred boxes of rice was reported as a dull affair. Some of the mills in the South have closed for the season. Foreign rice is in firm shape. While there is no diminution in foreign rice, it is in firm shape. Foreign rice is in firm shape. Foreign rice is in firm shape.

**BUTTER, EGGS**  
The butter market is dull, weaker and lower. Call sales were 100 tubs 50, 57 and 25 creamery extras at 43 cents. In futures 200 tubs extra, seller June, 40-44 cents; 200 tubs at 40½ cents.

The egg market shows a little better tone on fresh eggs, but prices were not advanced on grades. The supply of bantams is completely exhausted, even the small broken lots having been taken. Sweet corn are sure to give out long before the new crop is available. The market continues to sell rather heavily on spot.

## CANNED FOODS

Dealers showed considerable concern today over their inability to fill orders for canned corn and peas in the fancy grades. The new crop of sound peas will be a sufficient large stock to carry on with. Corn, however, is completely exhausted, even the small broken lots having been taken.

## COPPER, ZINC

The copper market is down to 15½ cents for electrolytic delivery through May and July and even as low as 15.3 cents is heard. It is understood that one of the two producers is willing to sell at the 15½ cent price at this time.

London cables standard as off 10 shillings to 65.75 for spot and 66, 2s 6d for futures, while electrolytic dropped 11 to 47½ for spot and 47 for futures.

## DRIED FRUITS

Independent apricot growers on the Coast caused quite a little excitement among dealers on the west side when they quoted futures in dried apricots at 12½ and 13 cents for standard Blenheim at 10½ cents, choice at 12½, extra choice at 13½ and fancy at 14 cents. Northern apricots were also quoted at 1½ cent less for corresponding varieties.

The California Prune and Apricot Growers' Association quoted the new crop Sunwest evaporated apricots at \$1.50 per dozen for the 11-ounce carton, packed forty-eight packages to the case. This price is f.o.b. Coast.

## SUGAR MARKET

There was more or less of a deadlock in evidence of the sugar market today. First prices were easy, being unchanged to 2 points lower and under liquidation from trade sources, prices broke to 13½. It was a nervous market for the first time in the afternoon. The market closed 1 point higher to 6 points lower.

Very little new buying was in evidence in the refined-sugar market. Refiners maintained prices at 75¢ to 76¢, but economic conditions were reported in evidence at 3.50¢ to 4.00¢. The export trade which is nominally 7.5¢ cents can be shaded.

## COFFEE, TEA

Bullish Brazilian cables in conjunction with a strengthening statistical position prompted September shorts to cover coffee, sending that option up about 15 points to 8.5¢. Coffee call had been 2 to 3 points higher with only limited trading in evidence, but a special cable from Santos stating that it would be unwise to offer early receipts the latter part of June owing to improperly cured coffee, with unimpaired beans resulting from wet weather, and that offers of such quantities of coffee as are wanted by the United States cannot be made before July had a stimulating influence on sentiment.

A net advance of 11 to 43 points was established at the close. The day's sales were limited to 16,000 bags.

Strength continues the outstanding feature of the tea markets with interest focused on the opening of the new crops in the primary markets.

The Japan tea market was reported 5 to 10 per cent higher, according to cables reaching the trade late today. Buying for American account is reported. Late cables from Formosa confirm previous reports that government standard teas have opened at 20 to 21 cents, which is 10 to 12 per cent higher than a year ago.

With domestic consumers continuing to slow down in the matter

## Investment Review Deals With Bond Yields; Price Adjustments; Tire Scare Blows Out

BY CHAPIN HALL

L. M. Maynard, formerly consulting economist and manager of the economic research department of the Citizens National Bank, is to be associated with Malcolm Crowe, formerly vice-president of the Commercial National Bank, who is organizing a new national bank in this city. Mr. Maynard will be in charge of a department of economic analysis in the new bank, which he says, it is purpose to make very broad in its ramifications, having application to the man on the street in a proportion almost equal to the interest it will have to the financial, commercial, industrial and agricultural interests of this section.

As has been his custom for eight years, Mr. Maynard has produced at the middle of the month a review of the financial, commercial and industrial conditions in the United States, which this month contains something of vital interest to the investor. The upshot of his findings on the subject are that, even though the bond market has been a major trend downward, this movement does not affect nor should it interest to any income investor.

The study in bond yields covers

the period from April, 1921, to the present time, and carries the reader through five complete business cycles. In each cycle a major upward yield (downward price) movement started in a second or prosperity period, and a major downward yield (upward price) movement set in in the late stage of the third or liquidation period. Besides this, his study shows that there has been a decidedly regular upward trend in the average yield level of each cycle. In the first cycle the average yield was 3.2 per cent; in the second, 4.07 per cent; in the third, 4.18 per cent; in the fourth, 4.2 per cent, and in the fifth, 5.34 per cent.

In accounting for the increase in the cycle average yield, Mr. Maynard says that the average increase has been in a measure closely proportional to the decline in the purchasing power of the dollar, in a manner similar to that, bond yields rise and fall in major trends in keeping with the major rise and fall in the purchasing power of the dollar.

Current production rate is on the basis of 15,000,000 tires although consumption figures fall from 10,000,000 to 15,000,000 below this figure. Many plants report unsold supplies gradually piling up, and while no one in the trade is willing to sponsor the suggestion it would not be a matter of great surprise if moderate price reductions were soon made. Automobile production is still at peak, but there will soon be a seasonal slowing down. Freight-car production is also at a peak. While there is no diminution in Southern California sales it is un- doubtedly pending the time it becomes more profitable and generally advantageous for them to use the funds in another manner. These permanent income holdings are continuing to perform their function. One may have purchased a 5 per cent twenty-year income on say \$500 for \$160. That 7½ per cent yield on the money actually paid is better than can be bought now. Besides that, the long-term bonds should not unload, his well-bought investor. It is pointed out that if a group of good, seasoned long-term bonds had been purchased in the early stages of the depression, the holder would find nothing to gain by selling them. The long-term bonds are continuing to perform their function. One may have purchased a 5 per cent twenty-year income on say \$500 for \$160. That 7½ per cent yield on the money actually paid is better than can be bought now.

## INVESTMENT SITUATION

In covering today's situation in investments, the reviewer says that the permanent income investor should not unload, his well-bought investor. It is pointed out that if a group of good, seasoned long-term bonds had been purchased in the early stages of the depression, the holder would find nothing to gain by selling them. The long-term bonds are continuing to perform their function. One may have purchased a 5 per cent twenty-year income on say \$500 for \$160. That 7½ per cent yield on the money actually paid is better than can be bought now.

## BOND MARKET

Conversation was the watchword in the bond market and prices changed but little despite unsettled conditions of stocks.

Liberty bonds turned very dull closing up 1-32 to off 1-16 which put the yields from 3.44 to 4.60.

Industrial bonds slumped considerably in so far as new business was concerned, although few prices showed more than minor changes for the day.

Sugar bonds were dull.

Copper issues were generally prevailing. The farmer will undoubtedly be a better buyer of consumable goods than was originally expected, and the general business structure continues to have evidence of be-

(Continued on Fourteenth Page)

## A Territory of Intensive Industrial Development

Many of us are inclined to think of Illinois primarily as an agricultural State. True, agriculture is highly important. But it is also a State of intensive industrial development as well. It is rich in coal deposits. Ore is within easy access. Given such natural resources, excellent transportation and a large, stable population—intensive industrial development is inevitable.

Illinois Power and Light is the public utility which serves electric light and power, gas and trunk line transportation in Central and Southern Illinois. It serves a population of about 700,000, of which over 400,000 live in cities of 10,000 or more. It serves 300 municipalities. It has 67,000 gas

customers, 172,000 electric customers and does a gross business of over \$25,000,000.

Besides this rich Illinois territory, it also serves a number of communities centering Des Moines, Iowa, and Topeka, Kansas.

Illinois Power and Light ranks among the large public utility companies of the country. Its securities give sound and attractive investment for your funds. Two bond issues are now available—one a \$1,000,000 refunding bond and another a sinking fund debenture gold bond, bearing 7½ interest at 100 and offering \$100 have funds at the present time we shall be glad to send descriptive circulars on either of both issues.

# Manufacturing PROFITS

THE rapid development of industrial Los Angeles is now a matter of common knowledge. Its prominent ranking among the manufacturing centers of the country is freely commented on. That manufacturing is one of the most prolific sources of wealth is an accepted fact.

but have you ever given the thought of participating in and profiting by this great industrial activity? You realize the opportunity. Evidence of industrial prosperity is apparent to everyone.

Take the case of the Marbelite Corporation of America, one of the fastest growing industries in Los Angeles. This Company is the sole owner of Marbelite, a product used by almost every municipality in Southern California. A limited issue is being offered to finance business already on hand and to increase production necessary to take care of the growing demand.

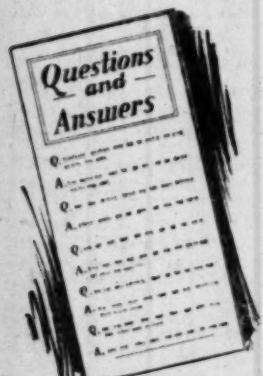

You get full participation in the profits of this company, as the security is sold in units of preferred and common stock. There's only one practical way to reach a decision—INVESTIGATE—anyone interested in self-betterment should send for a copy of illustrated folder because it tells of a product that offers all the advantages of pioneering—but with none of the hazards. Not to know about Marbelite is closing one's mind to one of the really big revolutionary products that is placing Los Angeles in capital letters in the industrial "WHO'S WHO" of America.

The facts are here at your disposal. Call, phone or write and we will send data that will enable you to really know Marbelite.

Sold only in units of 2 shares \$75 a Unit Preferred and 1 of Common at \$75 a Unit

## Definite Trend is Lacking in Grain Prices

(EXCERPT FROM DISPATCH)

CHICAGO, May 15.—Grain markets, while continuing to show a moderate range, failed to get far in either direction. On the break there was good support, while on hopes offerings increased. There was largely a professional character, but the undertone was not weak, and wheat and corn both closed with net gains of 1/16c, while oats were up 1/16c and the 1/16c.

Sentiment was more favorable to the buying side of wheat on breaks, and in some quarters there is a strong belief that the market is to do much better as the unfavorable character of crop reports coming from parts of the winter wheat belt, although they are not being given in the trade. May wheat and light and heavy corn over July, ending May on the latter for the day, with wheat because the bulk harvest. The grainest part of the 40,000 bushels reported and for export at the season was hard winter wheat via the Gulf.

A decrease of 6,322,000 bushels in the flour stock supply, bringing the total down to 35,402,000 bushels, induced buying at one time, but the trade paid little attention to realize that the United States and Canada had probably 100,000,000 bushels wheat than in 1922. Interwar wheat had lower to bid higher later in October. Heavy rains have fallen over parts of the corn belt and planting promises to be delayed for several days. There was little in the news to affect the market and white prices saw a range of 1/16c for the day. The fluctuations were largely the result of local operations. Bids in the wheat market was somewhat irregular, with receipts of 41 cars the morning of the season. Country offerings remain light, although the season when the after-harvesting work would get under way is near at hand. Factors demand was only fair with buyers apparently waiting for the market to steady.

This showed more strength than corn, with cash buyers buying May. The latter went to 1/16c under July and August. As the high market and cash demand showed improvement, weather conditions were generally favorable for the new crop. Receipts, 45 cars. A house with lowboard connections was a good buyer of the futures and cash offerings light, the only pressure being from a local house that sold here and purchased at Chicago. No 21, truck, and 14 to 16 May.

Following are the opening, high, low and closing quotations:

## Man Sought by Police Here is Held in Omaha

Los Angeles police yesterday learned of the arrest in Omaha of Alsey Frank (swim) Champion, sought for more than a year in connection with the murder of James E. Goldy in a gambling game at 309 West Ninth street on the night of January 10, 1932.

Champion was arrested on a charge of murder in connection with the killing of Goldy, who was shot and fatally wounded after he had won money from Champion and several other persons in a game. The other persons who were arrested in connection with the killing of Goldy are: Charles E. Champion, who was arrested in Omaha; and several other persons who were arrested in Omaha.

## Carpenter in Quarrel at Work May Die

A quarrel between two carpenters in which clammers were the asserted weapons, put Arthur Beaton of 3553 Arroyo Seco Drive in the County Hospital yesterday and Warren Potter of 2625 East Fifty-third street in the City Jail.

The two men were working together on a house at 1621 North Cole avenue, Hollywood, yesterday morning, when a difference arose over their work. Potter told Detective Lieutenants Hickey and Cullen that he refused to change his place of work when Beaton raised him to and that Beaton raised his hammer to strike him. He said he then used his own hammer in self-defense.

Police Surgeon Dorn reported that Beaton is suffering from a basal skull fracture and is likely to die.

## ONLY SMALL ESTATE LEFT BY HERRINGTON

Attorney Bert A. Harrington, who appeared for Mrs. Clara Harrington, left an estate of only \$2500, it was stated yesterday when his widow, Mrs. Helene Harrington, applied to Superior Court for letters of administration. Harrington died suddenly at a party. He was attorney at the time for Armour L. Phillips, who had just been convicted of murdering his wife in his escape.

Will keep splendidly when the mashed potatoes must be held up until their course, place a pan of boiling water on the simmer and into this put the pan containing the potatoes, keeping a lid on the pan.

## MRS. OBENCHAIN THREATENS SUIT

Cleared in Jail Break Plot, She Accuses Carlton

Clara Phillips's Identity is Admitted by Carson

Companion Given \$10,000 to Fight Extradition

Following her appearance before

Chief Deputy District Attorney

Keyes yesterday morning when

she explained to the satisfaction

of the acting district attorney the

manner in which articles belong-

ing to Clara Phillips came into

her possession, Madalynne Oben-

chain, through her attorney, W. B.

Beirne, late yesterday announced

the contemplated filing charges

against Harold Carlton, who turned

the articles over to a local news-

paper with the information that

they had been given to him by

Mrs. Obenchain to destroy.

Mrs. Obenchain's explanation of

the manner in which the articles

came into her possession took

more than an hour, and at the end

of that time Chief Deputy District

Attorney Keyes announced that the

charges made by Carlton were "all

bunk."

Mrs. Obenchain satisfactorily

explained to the district attorney

that the articles which she turned

over to the newspaper were the

same as those which she had

previously turned over to the

newspaper. She stated that she

## PORT WORKERS QUIT STRIKERS

Wobblies Blasted as 200 Return to Jobs

Shipowners Declare Walkout Virtually Ended

Police Ready for Expected Red Influx

Two hundred striking longshore-

men members of the Federation

of Marine Transport Workers of

the Pacific Coast, returned quietly

to their posts late yesterday after-

noon, bringing the strike to a vi-

tual end. In reality nothing like a

strike now exists at the harbor,

except the members of the Ship-

owners' Association declared, although

officially one is in effect.

Conditions at the port are prac-

tically normal today, it was stated.

There are 200 men at work, the

rest of the men being on strike.

The men who returned to work

were not met by the police, and

there was no demonstration.

## HARBOR BOARD IN HOT DEBATE

Commissioners Accused by Group Chairman

Contracts Awarded Illegally, McKee Contends

Richards and Kibele Deny All Charges

Charges that Commissioners

Kibele and Richards of the Board

of Harbor Commissioners had il-

legally awarded contracts for work

at the port were made yesterday

at an open meeting of the com-

mission by Edgar McKee, chair-

man of the Board.

The meeting was marked by a

bitter verbal battle between Mr.

McKee on one side and his two

fellow-commissioners on the other.

The dispute raged at fever heat

more than a half-hour and the

meeting was finally adjourned with

practically nothing accomplished.

Mr. McKee centered his attack

on letters sent out by Secretary

Wade of the board to all depart-

ment heads of the commission at

the harbor ordering them to send

all bills and requisitions to the

commission to be passed upon. He

declared that the letters had been

written at the instance of Mr.

Kibele and Mr. Richards.

He charged the two commis-

sioners with awarding contracts for

work entailing an outlay of more

than \$100,000 to the few favored

individuals and firms without

planned by the Wobblies, who

## JAIL SCANDAL DENIALS MADE

Suspended Deputy Prepares to Fight Charges

Former Turnkey Said to have Substantiation

Manning Expected to Offer Frame-up Plea

Sheriff Traeger spent yesterday in clearing up the accumulation of business on his desk which had gathered there during the three weeks' investigation carried on in company with the Los Angeles Crime Commission which culminated Monday in the suspension of A. L. Manning and R. L. Counts from their posts as deputy sheriffs. Determined to fight the charges, which he termed a "frame-up," Manning has retained an attorney to represent him at his hearing before the Civil Service Commission the 24th inst. A denial was entered by Manning yesterday to the accusations voiced by Herbert Wilson, ex-minister, and convicted murderer, that the break of April 1932, over the Bridge of Sighs, which resulted in the death of Herbert Cox, was engineered by him in order to get Wilson out of the way.

Data on hand. It is believed that the sheriff has a mass of data concerning activities of Manning, which will be made public in case the suspended official forces things to a showdown. Harry Glaze, a turnkey in the County Jail when Wilson, in company with Guido Spingola, "The Mouse," and Adam Ward, "The Stranger," effected their twenty-four-hour escape in October, appeared before the sheriff yesterday and offered a statement which is said to substantiate the charges of Wilson and J. Mark Bailey, now County Jailor, that large sums of money had been paid up by Wilson to Manning. Glaze was dismissed following the October jailbreak, and who seeks to have his name entered upon the eligible list of county motorcycle officers.

**DENIAL BY CHONIN**  
Robert Cronin, formerly County Jailor, who was dismissed as a result of the Wilson escape of last October, yesterday entered heated denials to the statement of Wilson that \$2,000 had been paid him by Helen Gillespie, who acted for Wilson. Cronin said these charges, upon which he was dismissed, cannot be proven. His case is now on appeal.

Deputy Sheriff Harry Wright, who succeeded Mr. Manning to the position of chief of criminal investigation, yesterday was accorded expressions of loyalty from the entire force, from Sheriff Traeger to the youngest deputy. R. L. Counts is believed to have gone to Toledo, O., where he is under subpoena as a witness in the mail robbery trial of Eddie O'Brien, who was captured in a house on Central avenue Feb. 15, 1932.

## EXPECT BIG CROWDS AT CONVENTION

Head of Woman's Benefit Association Will Arrive on the 23rd Inst.

Miss Bina M. West, supreme commander and founder of the Woman's Benefit Association, will arrive in Los Angeles on the 23rd inst., preparatory to the opening of the quadrennial international convention of the association here the 25th-30th insts., according to advice received yesterday.

Preparations for handling an attendance of 8,000 members of the association from all parts of the United States and Canada are being made at the Lankershim Hotel. The convention will be one of the largest ever held in Southern California.

Plans for a nation-wide campaign for health centers, girls' clubs, junior recreation and other outdoor group activities, will be made in Los Angeles during the convention. Approximately 3,000 clubs, representing a membership of 250,000 women, are engaged in the welfare work throughout the country, in Canada and Hawaii, and will be guided by the results of the convention here.

## Girl Attacked by Armed Man After Robbery

Miss Lillian Lewis, 21 years of age, a telephone operator in a downtown hotel, was in a critical condition at the County Hospital last night after being held up, robbed and attacked by an armed man a short distance from her home at 2244 Moss avenue early yesterday morning.

The assailant followed Miss Lewis to the hotel, where she was held up and a street car at Fourth street and Broadway. He got off the car just behind her at Thirty-third street and Verdugo Road and a block bend held her up at the point of a gun, took the small change she carried and forced her to accompany him behind a billboard in a vacant lot near-by.

After the man left her the girl managed to crawl to a house half a block away and police were notified. Detective Lieutenants Lefthand and Ramera were assigned to look for the assailant.

## UNIVERSITY BAND IS OFF ON LONG TOUR

Members of the band of the University of Southern California left yesterday morning for a three days' concert tour of the southern part of the State under the management of Harry R. Day. Yesterday afternoon the band program was given before the Orange High School, and this morning the bandmen will present a special program before the San Diego Woman's Club. Tomorrow morning the band will give an exhibition drill and concert in the San Diego High School stadium. Forty-five members are on the trip.

## PLEA MADE FOR PORT BONDS

Former Chamber President Asks United Public Support to Give City Adequate Harbor

"The best investment the people of Los Angeles can make to assure continued prosperity in this city is to vote for the \$15,000,000 harbor bond issue on June 5." That was the advice given yesterday to the taxpayers, large and small, the business man and the wage earner by Sylvester Weaver, former president of the Chamber of Commerce and first chairman of the reorganized Harbor Committee.

"Harbor development," said Mr. Weaver, "is the best lead we have to the making of a great city—a city that will be great in industry, in commerce, in culture, in art, and all the other attributes that go to make up a metropolis."

**URGES UNITED SUPPORT**  
"Every resident of Los Angeles, every taxpayer, no matter how large or how small his holdings, are, every business man and every wage earner, should be enthusiastic in support of the harbor bond issue," he urged. "It is the only way to make up a metropolis."

**HARBOR INADEQUATE**  
"The amazing growth of this harbor within the last five years has been a source of world wonder. But we have grown so fast that the harbor is now inadequate to the demands being made upon it, and we are actually losing business because of it."

**PLAN DANCE CONTEST**  
Second of Series to be Given by Muir Hikers Saturday Night

A dancing contest, lucky spot dances and souvenirs for all are some of the features of the second of a series of dances to be given Saturday night at the Manosio Temple, 7100 and Figueroa streets by the Muir Hikers from the B. H. Dyer Company Log Cabin. The affair, in charge of Mrs. E. E. Gillett, is to help toward the fund being created by the hikers to purchase memorial windows in honor of the late John Muir. These windows will be placed in the mountain chapel, now being built in the Arroyo Seco. Admission to Saturday's ball will be by ticket only and a limit of 200 has been set.

## FIRE MENACES MANY HOMES

Fire started, it is asserted, by an acetylene-welder's outfit, and fanned by a high southwest wind threatened yesterday a score of dwellings near Thirty-third street and Maple avenue and caused the destruction of one house, one warehouse, one shop and two automobiles with damage estimated at \$15,000. Police and firemen are looking for the welder on orders of Battalion Chief Blake. He is said to have disappeared when the fire started.

Two concrete mixers in the yard of a shop belonging to A. Knickrehm, a house mover, at 207 East 33rd street, were being repaired by the welder, it is said, and sparks from the welding outfit are asserted to have caught the Knickrehm shop. The fire spread from this to a two-story warehouse at 211 East 33rd street, owned by the Mox Wrecking Company, which had formerly owned the Knickrehm shop, and from the warehouse to a dwelling at 212 East Thirty-third street owned by the Knickrehm family. The automobiles and a pile of stove wood which were destroyed were in the Knickrehm yard.

Knickrehm told the police that the welder was trespassing in his yard and had twice been warned to take the shop and the warehouse. He said it had sold the welder to a contractor and that he had informed the welder.

## ONE KILLED AS TROLLEY RAMS AUTO

Woman Driver Dead and Matron Seriously Hurt Near End of Bu' ank Line

When the automobile which they were riding last yesterday was struck by a Pacific Electric trolley near the end of the line in downtown Los Angeles, a woman was killed and a matron seriously hurt. The car, driven by Mrs. M. J. Murray, was struck by the trolley at the intersection of 33rd street and Buena Vista avenue. Mrs. Murray was killed and a matron, Mrs. J. H. Thompson, was seriously hurt. The trolley was driven by Mr. J. H. Thompson, who was not hurt. The car was a 1931 Buick.

## MEXICANS GIVEN Aid by Change in Revenue Act

United States Collector of Internal Revenue Goodell yesterday received notice of an amendment to the Internal Revenue Act that will act for the benefit of thousands of Mexican laborers who, while residents of California, are employed in California. The amendment is retroactive, as it applies to returns made for 1922. Nonresident aliens who are residents of Canada also come under the amendment.

## UPTON SINCLAIR HELD BY POLICE

(Continued from First Page)  
tion to Capt. Plummer, in command of the Harbor Police, whom he said was in charge of the situation and would issue any permits for meetings. When the visitors started to talk about the constitutional rights of the strikers, Mayor Cramer, from his desk and in emphatic tones gave them a short but eloquent lecture on the subject. "Too many of the foreigners who come here yab about their constitutional rights," said Mayor Cramer.

## VALLEJO MAN DIES IN GLENDALE HOSPITAL

J. O. CRAMER, INJURED IN AUTO AND STREET-CAR CRASH SUCCUMBS  
J. O. Cramer, 332 Georgia street, Vallejo, died last night at a Glendale hospital after receiving Monday night when his automobile was struck by a Los Angeles street car at the intersection of Pasadena Road and Glendale avenue. Cramer had just driven from a filling station and was crossing the track when his car was struck. He was carried to the County Hospital and later removed to the Glendale hospital.

## THIEVES PARTICULAR Only Jewelry and Clothing Taken From Hollywood Homes

Police detectives of the Hollywood division are investigating a series of burglaries which have occurred recently in Hollywood, in which only jewelry or expensive clothing, furs, silks and satins have been taken. The latest to report the theft of such articles were: Paul Scholfield, who told Officer E. J. Fackert that burglars forced their way into the home of Charlotte Gordon, 4421 Sunset boulevard, and stole off a diamond ring valued at \$1,600, a diamond and platinum wrist watch and other jewelry. Fackert, Hutton, 4822 Elmwood avenue, the theft of a diamond and pearl necklace valued at \$800 and several hundred dollars worth of women's clothing; Holbrook Blinn, film actor, reported that his home at 1729 Orange Drive had been burglarized and a pair of diamond studs taken, together with clothing and other valuables.

## LIFE APPEAL FAILS

Pole Convicted of Murder Must Serve Sentence  
John Schelest, a Pole convicted jointly with Adam Blawie and Valentine Rodzicki, contrived the murder of Mrs. Nancy Wheelock and sentenced in Judge Wradin's court to life imprisonment, must serve his term, according to the judgment of the District Court of Appeal which yesterday, in Division I, handed down an opinion affirming the finding of the lower court. Schelest appealed on the ground that insufficient evidence was produced at the trial to convict him as a guilty participant in the crime. Mrs. Wheelock, an aged apartment-house proprietress, died in April, 1922, from the effect of strangulation which, evidence produced showed, followed an attack made on her by the three men, with robbery as the supposed motive. Blawie and Rodzicki also received sentences of life imprisonment for the crime and are now in San Quentin.

## TWO CITIES OFFER GAS RATE PLEA

San Bernardino - Redlands Complain That Charge is Excessive

The case of the cities of San Bernardino and Redlands, both of which are petitioning the State Railroad Commission to determine a just rate for gas service furnished them by the Southern California Gas Company, was presented yesterday before Commissioner Brundage of the rail body. Complaint was made by each municipality that the charge for gas service, as at present rendered, is excessive.

City Attorney Guthrie of San Bernardino and City Attorney Leonard of Redlands represented the respective communities at the hearing. J. H. Reynolds, chief counsel for the Southern California Gas Company, and his assistant, E. J. Reynolds, presented the case of the fuel corporation. A principal witness for the latter was the stand during the day in front of a person of L. W. H. Jojoff, special accountant for the company. According to the corporation's testimony, improvements and extensions of the plants for the manufacture of artificial gas to serve the San Bernardino and Redlands districts have necessitated the existing rates of the commodity. Previous to October, 1929, it was stated, the territory under discussion was served with artificial gas from the Colton plant, which, it is calculated, will be in operation before winter comes. Redlands consumers, according to the present schedule, pay a rate of \$1.30 for the first 3,000 cubic feet of gas; \$1.30 for the fourth thousand; \$1.07 for the fifth thousand; above that to \$0.60 per cubic foot, at a rate of 57 cents is paid. Redlands pays a rate of 5 cents more, in block lots for gas than the latter community. In each there is a minimum meter charge of \$1 monthly.

## ASPIRIN

SAY "BAYER" when you buy

Unless you see the name "Bayer" on package or on tablets you are not getting the genuine Bayer product prescribed by physicians over twenty years and proved safe by millions for colds, headache, toothache, earache, neuritis, lumbago, rheumatism, etc.

## SHIRINERS BAND TOOTS FOR KHJ

Inspiring Marches and Soft Serenades Are Given

Brass Quintet and Soprano Assist in Program

Lectures on Varied Subjects Are Interspersed

BY BEN A. MARKSON

Two more business and professional men of Los Angeles, each bearing the symbol of the Shrine, are participating in the Shrine program at KHJ.

The program at KHJ is a series of lectures on varied subjects, interspersed with musical numbers. The first lecture was given by Dr. H. H. Fortne, a physician and a member of the Shrine.

## Of Interest to Women

### SOCIETY

Many have received from Mrs. MacNell's family a letter of introduction to the family of the late Mrs. MacNell, who was a very popular and successful business woman in Los Angeles.

John Winston, Jr., of the Los Angeles family, has been a guest at the home of Mrs. MacNell's family.

### THE LAST WORD.

BY ALMA WHITAKER.

Angeleno Ways

We may not be perfect, but we have our virtues. My morning's mail proves that several visitors find us an angel city. Just take Mrs. Medeiros, who writes from 3111 West Twenty-eighth street, an eastern lady who admits that she is a fussy buyer—very particular. One of her little customs is to select good stores, make friends with a special saleswoman in specific departments, and train them to understand her taste and the styles she affects.

She had barely completed this undertaking in Los Angeles when she came here from the East, when she was taken ill. She hasn't been able to leave the house since last January. But now she writes that, entirely by telephone, and with the aid of these young store women, she has been able to do all her shopping to her utmost satisfaction. They have sent her the hats and dresses and everything I would have selected and purchased myself had I actually been in the shops.

Never, she says, has she shopped so easily, so satisfactorily, as has been vouchsafed her by our wonderful Los Angeles stores and our peculiarly understanding and sympathetic saleswomen.

At the same time an Englishwoman relative of mine visiting in Los Angeles stands amazed at our lovely "draper shops," which is English for dry goods stores.

You know, since the war the French have opened all sorts of wonderful shops in London, so smart and chic, and the French saleswomen are so wonderfully thoughtful and polite. We Englishwomen just love them. Why, they are almost as good as your Los Angeles shops.

"Ais-eat-as good," I laughed. "Who are your visitors?" "Oh, my dear, you have the best shops in the world here," she answered, almost reprovingly. How could I have doubted it? Shopping is a perfect joy in this city.

As you know, dear, I have shopped in most of the big capitals of the world, including your New York, but no other city has such beautiful stores, such a wealth of choice, such extraordinary good taste, and such utterly charming salespeople as Los Angeles.

"Why, I can rest or write letters or read the paper in delightful rest rooms, there is always a courteous person to give me information, and when I am shopping and ask for things in the English way, they are always so patient and polite. They all seem to have a little friendly smile for me, and they are not at all cross if I don't buy. They don't seem to mind how much trouble they take to find what I want, and after all that, they actually let me exchange things if I don't like them when I get them home. You know, our English shops, and even the French ones, are quite horrid about changing things."

She can go on like that for hours. Yes, even about prices. "How do we compare in prices?" I asked.

"Oh, for the really nice things you are cheaper—much cheaper than New York, and often even cheaper than London."

And before me is a letter from a man. He, too, comes praise of us. It appears he has been house-hunting. And he declares that our real estate people are the most patient, polite and understanding of any he has ever met.

"One man drove me around and showed me about twenty properties—best part of several days. And he took the most sympathetic interest in the needs of my family—and my pocket. We gave him ever so much trouble, and then in the end bought directly from an owner. I was really sorry to do that, and went to thank my friend and apologize. He only laughed good-naturedly and said: 'Oh, never mind that. It is all in the day's work. You know, our English shops, and even the French ones, are quite horrid about changing things.'"

She can go on like that for hours. Yes, even about prices. "How do we compare in prices?" I asked.

### Fashions Forecast

A \$10 STYLISH DRESS FOR \$2. Most disconcerting to the young mind is to say that clothes are practical, for while practicality may mean everything to the school girl's mother, it never goes very "strong" with the young person herself. However, if attractiveness is wisely combined with serviceability, both mother and daughter will sanction such a new frock.

In the style illustrated you will find both these requisites for school wear. Classrooms are not always as comfy as home in the winter time, so we have provided this style with long sleeves that are gathered to wrist bands. A dark blue serge bound with red crepe de Chine would be very smart and would only cost about \$2.00 figuring material at 85c per yard and binding 10c per yard.

The pattern No. 1579 cuts in sizes 6, 8, 10, 12 and 14 years. Size 8 requires 2 1/4 yards 36-inch material and 1/4 yard 3/4-inch material. Price 15c, stamps or coin (coin preferred).

But we mustn't rest on our laurels, and we must not get smug. All the same, don't you know, it does kind of offset the spine annals and the "investigations" and things, and we were rather needing that little stimulant.

When arranging asparagus salad, slip the stalks through rings of red or green peppers. Serve with French dressing.

Don't take the chance that a stain remover will take the color out of the goods as well as the spot. Try it first on an underneath section of the hem.

If the laundry has been careless and allowed your linen to mildew, do not despair. Rub all stains with a fresh tomato, cover liberally with salt and place article in the hot sun. After washing and bluing the linen will look like new.

Those new bustle-back gowns, with fetching bows of white tulle, or gross grain ribbon are most attractive for our fapper of last year. However, the devotees of chocolate fudge and caramel sundae who have started on the high road that leads to "fat" and "forty" are warned to beware.

Wet ashes will clean steel. Clean plate glass with alcohol. Rubbing with a piece of lemon will remove grease from a kitchen stove. Wax paper wrappings are nice for the hot iron instead of using beeswax. Save them.

It is strange the way some people cling to an old supposition. Not so many years ago a great many people were misguided into the belief that gas is harmful. We will concede that gas has killed a great many people, but in practically every case it was due entirely to the fact that gas was burned without proper ventilation. What happened with gas heat in the room would have happened with a coal or wood stove without a chimney.

As one health authority puts it, "There is no hygienic objection to using gas as fuel for heating; the danger lies in not handling it the same as you would coal or wood or any other fuel. It is just as unscientific and just as bad for health to burn gas in a room unventilated to a chimney, or the outer air, as it would be to start up a coal or wood fire in a stove without a stovepipe."

Investigations have proven that a wood or coal fire in a room increases air circulation and is therefore beneficial; in order to have combustion we must have air from somewhere, and if, of necessity, we take air for combustion from the room, fresh air is drawn in through every crack and crevice to take its place.

Now then, the same holds true of gas. With a like precaution of a properly constructed vent or flue to carry off all products of combustion, a properly vented gas heater is the most healthful method of room-heating by gas, as there is not only no dilution of air by products of combustion, but, on the contrary, there is a direct ventilating effect, due to the fresh air being constantly drawn into the room by the heater.

We might better illustrate our point by the fact that in many chemical laboratories, where the air is being constantly vitiated by chemical fumes or noxious vapor, their system of getting rid of contaminated air is through the use of a gas burner placed in a suitable vent. The ventilation in a chemical laboratory must be far more

### HOUSEHOLD SUGGESTIONS

**Cake Frosting**  
If you always have some of the larger cakes left over, it might be a good idea to use only half of it at a time, wrapping the other half in waxed paper and keeping it in an air-tight box. Then when the first half is eaten, use the second half with an entirely different sort of icing and it will be greeted with enthusiasm as a new cake.

**Asparagus Salad**  
When arranging asparagus salad, slip the stalks through rings of red or green peppers. Serve with French dressing.

**The Better Way**  
Don't take the chance that a stain remover will take the color out of the goods as well as the spot. Try it first on an underneath section of the hem.

**For Mildew**  
If the laundry has been careless and allowed your linen to mildew, do not despair. Rub all stains with a fresh tomato, cover liberally with salt and place article in the hot sun. After washing and bluing the linen will look like new.

**WHAT TO DO**  
Tiny holes in the hot water bag can be mended with adhesive tape. Add a little baking soda to a flannelled poultice to make it lighter.

Grated carrots, instead of dried, give a pretty color to the vegetable soup. Baked potatoes are better if brushed with butter before putting into the oven.

French toast is delicious sprinkled with maple sugar instead of the customary granulated variety.

**Kitchen Wisdom**  
Clean plate glass with alcohol. Wet ashes will clean steel. Rubbing with a piece of lemon will remove grease from a kitchen stove.

Wax paper wrappings are nice for the hot iron instead of using beeswax. Save them.

It is strange the way some people cling to an old supposition. Not so many years ago a great many people were misguided into the belief that gas is harmful. We will concede that gas has killed a great many people, but in practically every case it was due entirely to the fact that gas was burned without proper ventilation.

What happened with gas heat in the room would have happened with a coal or wood stove without a chimney.

## The Nation's Interest Fixed on These Names

### Famous Patterns of Sterling (Solid) Silver

America's topic this week is Sterling Silver. Into every home where a magazine or newspaper is read is going a message of the beauty, the permanent worth, the high cultural value of SOLID SILVER.

Incident to that message are the names of America's foremost Sterling Silver patterns—designs which are as truly masterpieces of art as are great paintings or works of sculpture. You will find more than a score of them in the list below, which represents the offerings of our Department of Silverware:

<b>Hepplewhite</b>	<b>Colfax</b>	<b>Lady Mary</b>
<b>Mythologique</b>	<b>Etruscan</b>	<b>Landsdowne</b>
<b>Versailles</b>	<b>Edgeworth</b>	<b>Madison</b>
<b>Chased St. Dunstan</b>	<b>Fairfax</b>	<b>Mandarin</b>
<b>Carmel</b>	<b>French Antique</b>	<b>Virginia Carvel</b>
<b>Chatham</b>	<b>King Albert</b>	<b>Washington</b>
<b>Chantilly</b>	<b>Lady Constance</b>	<b>William and Mary</b>

Many of these patterns of solid silver flat ware are exclusive with Brock & Company and in most cases we have hollow ware to match. In the event that you are selecting a wedding gift, mention the name of the bride, so that we may point out to you the pattern which she herself has designated.

Visitors Welcome

"Distributing plans for 'Youth Triumphant' and other Fisher productions will be announced within the next two weeks," said Mr. Crane, Mary Anderson and others.

## WILL CLEAN UP JOB "AGENCIES"

Police Board Maps War on "Fake" Bureaus

Motion Picture Hiring Aides' Activities Sifted

Policewoman Incognito Gets Inside Facts

Laying the foundation for a clean-up by the Board of Police Commissioners against the fake employment agencies which rob aspirants for jobs at the motion picture studios, Chief Oakes yesterday submitted to the board a detailed report from Policewoman Lela B. Dittler setting forth her experiences in investigating "agencies" and showing that in most cases she was told that before she could obtain studio employment she must take a course of "make-up" instruction for which she must pay \$10. In submitting the report to the board, Chief Oakes said:

"In my opinion, some of these agencies are obtaining money under false pretenses and I feel they should be cited to appear before your Honorable Board to show cause why their licenses should not be revoked."

**GOES ROUNDS**  
The commission recently received a number of complaints against the motion picture hiring agencies, and Policewoman Dittler was assigned to make an investigation.

She was seeking employment at the studios she went from one to another of the agencies and her experiences are set forth in a report which is now a part of the official records of the Police Commission.

Policewoman Dittler's detailed report follows in part:

(1) I next made inquiries at Dick Parks, 406 South Main street. The large blond woman whom I contacted with this man appears to be the motion picture people are deceiving women on her behalf.

She told me that she had a phone number so if she has anything she can call me. Their address, she said, is 10 per cent of whatever salaries persons make on the picture work in which they place them. No advance fee was demanded.

She also informed me that I would have thoroughly to investigate the agency. I told her I did understand it already and I left.

(2) I then went to Miss Paul, 304 Chamber of Commerce Building. She was my first place of making up. I told her I did understand it already and I left.

(3) I then went to Miss Paul, 304 Chamber of Commerce Building. She was my first place of making up. I told her I did understand it already and I left.

(4) I then went to Miss Paul, 304 Chamber of Commerce Building. She was my first place of making up. I told her I did understand it already and I left.

(5) I then went to Miss Paul, 304 Chamber of Commerce Building. She was my first place of making up. I told her I did understand it already and I left.

(6) I then went to Miss Paul, 304 Chamber of Commerce Building. She was my first place of making up. I told her I did understand it already and I left.

(7) I then went to Miss Paul, 304 Chamber of Commerce Building. She was my first place of making up. I told her I did understand it already and I left.

(8) I then went to Miss Paul, 304 Chamber of Commerce Building. She was my first place of making up. I told her I did understand it already and I left.

(9) I then went to Miss Paul, 304 Chamber of Commerce Building. She was my first place of making up. I told her I did understand it already and I left.

(10) I then went to Miss Paul, 304 Chamber of Commerce Building. She was my first place of making up. I told her I did understand it already and I left.

(13) I then went to Miss Paul, 304 Chamber of Commerce Building. She was my first place of making up. I told her I did understand it already and I left.

(14) I then went to Miss Paul, 304 Chamber of Commerce Building. She was my first place of making up. I told her I did understand it already and I left.

(15) I then went to Miss Paul, 304 Chamber of Commerce Building. She was my first place of making up. I told her I did understand it already and I left.

(16) I then went to Miss Paul, 304 Chamber of Commerce Building. She was my first place of making up. I told her I did understand it already and I left.

(17) I then went to Miss Paul, 304 Chamber of Commerce Building. She was my first place of making up. I told her I did understand it already and I left.

(18) I then went to Miss Paul, 304 Chamber of Commerce Building. She was my first place of making up. I told her I did understand it already and I left.

(19) I then went to Miss Paul, 304 Chamber of Commerce Building. She was my first place of making up. I told her I did understand it already and I left.

## HOPE HAMPTON COMING WEST Has Leading Role in "Gold Diggers"

Closes Releasing Contract for "The Man Between," a Quebec Drama

After one of the quickest trips on record, Finis Fox has just returned from New York where he closed a releasing contract with Associated Exhibitors for his latest independent production, "The Man Between," a drama of modern life in the quaint old city of Quebec.

Finis Fox cut and titled his picture on route and notwithstanding the fact that he was offered several releasing contracts by other companies, signed a contract with Associated Exhibitors within three days after his arrival.

"The Man Between" was written by and directed by Finis Fox, the story was prepared by Lois Zellner and photographed by Sam Landers.

Included in the cast are such screen artists as Alan Forrest, Volia Vale, Philo McCullough, Edna Murphy, Kittle Bradbury, Fred Malatesta and little Doris Turner.

Finis Fox will resume production activities at once. His next picture will be a comedy-drama written by himself in collaboration with Miss Zellner, entitled, "Bag and Baggage." A cast of exceptional names will be selected to portray the important parts.

**WARING WEDS TODAY**  
Jazz Orchestra Head to Marry Pittsburgh Girl

At noon today, Fred Waring, leader of "Waring's Pennsylvanians," famous jazz orchestra, will be married to Miss Dorothy McAteer, Pittsburgh girl.

The ceremony will be performed at Wilshire Boulevard Christian Church.

The romance of Waring and his fiancée has extended over a period of several years. Two weeks ago Miss McAteer arrived in Los Angeles and at that time, according to friends, the marriage date was set for today.

**GOLDWYN GETS THREE FOR "DAY OF FAITH"**  
Tod Browning, Goldwyn motion picture director, has announced three important additions to the cast for his next production, screen version of "The Day of Faith," Arthur Somers Roche novel. He has signed William Hall to play the part of Bland Hendricks in the production. Rudy La Fayette, to play the part of Grady Maynard and Henry Herbert, for the part of Attorney Jackson.

## FOX HOME FROM HIS TRIP EAST

Closes Releasing Contract for "The Man Between," a Quebec Drama

After one of the quickest trips on record, Finis Fox has just returned from New York where he closed a releasing contract with Associated Exhibitors for his latest independent production, "The Man Between," a drama of modern life in the quaint old city of Quebec.

Finis Fox cut and titled his picture on route and notwithstanding the fact that he was offered several releasing contracts by other companies, signed a contract with Associated Exhibitors within three days after his arrival.

"The Man Between" was written by and directed by Finis Fox, the story was prepared by Lois Zellner and photographed by Sam Landers.

Included in the cast are such screen artists as Alan Forrest, Volia Vale, Philo McCullough, Edna Murphy, Kittle Bradbury, Fred Malatesta and little Doris Turner.

Finis Fox will resume production activities at once. His next picture will be a comedy-drama written by himself in collaboration with Miss Zellner, entitled, "Bag and Baggage." A cast of exceptional names will be selected to portray the important parts.

**WARING WEDS TODAY**  
Jazz Orchestra Head to Marry Pittsburgh Girl

At noon today, Fred Waring, leader of "Waring's Pennsylvanians," famous jazz orchestra, will be married to Miss Dorothy McAteer, Pittsburgh girl.

The ceremony will be performed at Wilshire Boulevard Christian Church.

The romance of Waring and his fiancée has extended over a period of several years. Two weeks ago Miss McAteer arrived in Los Angeles and at that time, according to friends, the marriage date was set for today.

**GOLDWYN GETS THREE FOR "DAY OF FAITH"**  
Tod Browning, Goldwyn motion picture director, has announced three important additions to the cast for his next production, screen version of "The Day of Faith," Arthur Somers Roche novel. He has signed William Hall to play the part of Bland Hendricks in the production. Rudy La Fayette, to play the part of Grady Maynard and Henry Herbert, for the part of Attorney Jackson.

Closes Releasing Contract for "The Man Between," a Quebec Drama

After one of the quickest trips on record, Finis Fox has just returned from New York where he closed a releasing contract with Associated Exhibitors for his latest independent production, "The Man Between," a drama of modern life in the quaint old city of Quebec.

Finis Fox cut and titled his picture on route and notwithstanding the fact that he was offered several releasing contracts by other companies, signed a contract with Associated Exhibitors within three days after his arrival.

"The Man Between" was written by and directed by Finis Fox, the story was prepared by Lois Zellner and photographed by Sam Landers.

Included in the cast are such screen artists as Alan Forrest, Volia Vale, Philo McCullough, Edna Murphy, Kittle Bradbury, Fred Malatesta and little Doris Turner.

Finis Fox will resume production activities at once. His next picture will be a comedy-drama written by himself in collaboration with Miss Zellner, entitled, "Bag and Baggage." A cast of exceptional names will be selected to portray the important parts.

## The roof "made" this house

The owner of this house didn't build it himself. It was old and long-neglected when he bought it. A loose, decrepit, worn-out roof made it look even more hopeless than it was.

But today the same house is a show-place in a community of noteworthy residences.

Just a little fixing here and there—and above all, a new roof of Anaconda Copper Shingles—made all the difference in the world.

### Copper shingles add value as well as beauty to a house

This owner was looking for two things in his roofing—permanence and beauty. He not only got them in abundant measure, but he got more.

For Anaconda Copper Shingles add to the resale value of any house the moment they go on it. They are fire-proof, weather-proof, indestructible, forever young.

They minimize the labor-cost of laying because of their form; they can be laid right over old shingles without removing the original roofing, without reinforcing the supporting structure.

And their enduring beauty is something that other roofs cannot possess.

For, aside from the architecturally pleasing shingle form, with its heavy butts and interesting shadows, Anaconda Copper Shingles are colored by a new pre-weathering process of oxidizing that brings them to your roof in permanent, harmonious tones of green, brown, and red.

#### Descriptive booklet on request

If you are intending to build a new house or to re-roof your present home, we will gladly call with full information. Booklet on Anaconda Copper Shingles sent free.

## MANY OFF TO VISIT IN EAST

Thirty-nine Crowded Trains  
Leave Southland

Each Carries Return Ticket  
for Los Angeles

Exceptionally Heavy Tourist  
Tide This Way

Thirty-nine trains, carrying more than 5000 passengers back to the thawing East to visit their old homes, left Los Angeles railway station yesterday, while nearly as many crowded trains left Chicago, New York and other eastern centers for California.

Almost without exception the eastern-bound excursionists were supplied with round-trip tickets. According to information reaching local railway officials, practically all the West-bound passengers also have round-trip tickets but for the very different reason that they do not know California.

According to James B. Duffy, chief passenger agent of the Santa Fe, about 2500 passengers left the local station yesterday on the California Limited, the Navajo, Scout, Missionary and No. 8. Another four-section train will start East today. Yesterday fifty sleepers left Chicago for California and 175 more Pullmans are scheduled to leave Chicago within the next four days.

#### THOUSANDS DUE HERE

C. L. Seagraves, general colonization agent of the Santa Fe, said yesterday that thousands of the West-bound Santa Fe passengers are coming to the Southland with a view to making their homes here and Mr. Seagraves said officials of the other roads, estimated that there will be the biggest summer travel into Los Angeles in the history of this city.

However, the best way to gauge the possible number of visitors to California this summer is not merely by estimating the number of tickets already purchased by easterners, but to consider also the missionary work which will be done by Californians who are taking advantage of the reduced rates to visit their old homes. For the East-bound passengers, the Southland are well supplied with both enthusiasm and facts with which to bombard their eastern relatives and friends and capture them for the land of Heart's Desire.

"The majority of those who visit the Southland within the next four months will either ask to have their return tickets redeemed or will frame them as souvenirs," said Tom Peck, general passenger agent of the Union Pacific system. "Within the next month more than 10,000 persons will go East over the various roads, and one of them will return, and they'll bring others back with them."

#### MANY DEPARTING

Mr. Peck said that seven trains departed from the U. P. station yesterday, carrying more than 1000 passengers, and that six or seven more trains will go out today. Business from Los Angeles will be exceedingly heavy within the next few days, said Mr. Peck, because Angelenos are anxious to do their visiting and get back to the Southland before the hot weather starts in the East.

"However, business from eastern points will not be heavy until after June 1, when the schools are out," said Mr. Peck. "The matchless climate of Southern California has been well advertised by the All Year Club, proved by the fact that we have had more than 1500 inquiries since last March. The Union Pacific will also spend \$150,000 in the East for advertising during the next few months and we are expecting the biggest summer travel in history."

The transcontinental summer excursion season opened yesterday with a rush that for hours gave the Southern Pacific station one of its greatest crowds. During the day nine heavily-loaded passenger trains drew away from one station, bearing happy throngs of excursionists.

"Each one of you is expected to bring back at least two relatives or friends as new residents," was the farewell word shouted by Frank Wiggins, secretary of the Chamber of Commerce, to those departing on the first train out.

Nearly all of the 1500 passengers, equipped with round trip tickets, went over the coast route Golden State routes through New Orleans and El Paso, although trains going by way of San Francisco and Ogden were also crowded.

#### GREAT INFLEX

Among prominent passengers leaving on the Golden State Limited yesterday were George L. Eastford, secretary of the Hollywood Chamber of Commerce, and his family, who are going to New York; Mrs. William Harnden and Miss Myra Harnden for a visit to friends in Boston, and Mrs. J. R. Reese and her daughter, Miss Beverly Jean Reese, were also crowded.

Reports received yesterday by F. S. McMillin, general passenger agent of the Southern Pacific, told of the thousands of persons who have left and are preparing to leave Chicago, New Orleans and other eastern and southern cities for extended visits to the Golden State.

Four trains which left Chicago yesterday will arrive in Los Angeles over the Southern Pacific line next Friday, it was stated. In preparation for the heavy summer traffic the Southern Pacific has concentrated a sufficient supply of sleeping car equipment and locomotives at various terminals. The back-East round trip excursion fares, which effect a saving averaging more than \$50, as compared with the regular fare, will be on sale until September 15, with the final return limit October 31. Round-trip privileges are allowed.

"Not only are we co-operating with local civic organizations, but all of our representatives in the East are helping the good work along by presenting facts concerning the Pacific Coast to persons who contemplate a visit to the West," said Mr. McMillin.

#### CONNELL GOING SOUTH

Capt. Charles T. Connell, Federal labor conciliator, leaves tonight for a month's trip through the South. In another effort to settle the strikes of the railway shopmen declared in July, 1922, still in force on a number of the railways in that section of the country. Capt. Connell will visit Dallas, Galveston, New Orleans and other cities along the Atlantic seaboard.

## The Vogue For the Short Coat

Many things a woman may dispense with—but a Short Coat she must have.

For Short Coats have taken the mode by storm, and are rapidly replacing everything from the overblouse to the top coat.

The wealth of choice in Short Coats awaiting shoppers at Robinson's will be a revelation.

Coats for sports, for semi-sports, for street and afternoon. Severely plain; or lavishly adorned. Sleeveless or with sleeves. Buttoned in front, or tied at the side.

Many of the more formal ones are of rich metal cloths. Still others are of silk, heavily embroidered, and collared in fur. And some of them are imported from France.

Black, beige, cocoa, white, gray, colors. Sizes from the very small to the very large. And prices for every income, beginning at only \$8.50 (for a sleeveless flannel jacket, bound in braid.)

THIRD FLOOR

## Skirts of Silk and of Wool For Sports Wear

MANY times and many places this summer every woman will need a sports skirt of silk or wool. If the choice has been made from the group at Robinson's one may count as a success any and every occasion when the skirt is worn.

Silk skirts that pair off perfectly with sweaters, overblouses and jackets are knife pleated, box pleated or in combination pleats, in tailored and wrap around models.

The fine, heavy fabrics that make them are Cambridge, Canton and Lenox Crepes as well as other novelty weaves, and there is a good selection of sizes from 27 to 38-inch waist measures, in beige, caramel, gray, white, navy and black.

The prices begin at \$11.75.

For a wool skirt of a very light, wearable weight for summer, is Wool Canton Crepe in many sorts of pleating, knife and box, and the plain tailored styles. Fancy silk stripes in self tones emphasize the long lines of some of them. Colors are in a delightful array of beiges, cocoas, whites, navys, grays and blacks; and skirts may be had in waist measures from 27 to 38 inches in many of these shades.

Prices begin at \$9.75.

THIRD FLOOR

The sleeveless Coat at the right above is of white flannel embroidered in yellow. \$18.50. At the left is a little coat of metal cloth—Chinese blue figured in gold. \$65.00. Below it a Coat of gray roshanara, braided in self color. \$45.00.

The pongee Sports Frock at the extreme right above, is distinguished by the braid trimming, and by an unusual treatment of the pockets. \$18.50.

In the lower corner a Frock of white silk is embroidered in brilliant colors, and trimmed with plush white silk. \$75.00.

## Frocks in a Mood for Sports

QUITE prepared for any emergency of a long vacation day. Frocks alluring in their grace of line and vivid in their harmonies of color.

Frocks which prove that beauty and utility go hand in hand in all self-respecting sports attire.

Many of them are complete costumes—frocks with matching coats or capes. Others are slim little one-piece devices for adding to the enjoyment of a warm summer's day.

Of tub silks, printed crepes, plain crepes—hand drawn crepes. And in almost any shade which a girl's or woman's heart could wish—whether delicate or brilliant.

## Sports Blouses

DISTINCTIVE white blouses for sports wear—especially for wear with sleeveless sweaters and coats, are of an excellent quality of radium silk.

The neck lines are to be found in those two favorite types of which one or the other is certain to be becoming, Peter Pan and the V-neck shape.

These blouses from size 34 to size 44, have the two prices of \$10.40 and \$12.50.

THIRD FLOOR

At the extreme left is sketched a Frock of black and white printed silk. The large white collar reverses the usual order of things and lies in the back. \$67.50.

Next to it is a short coat of yellow flannel heavily embroidered, and tied with a bright moire sash. \$51.50.

THURSDAY MORNING.

**LANDS YIELD  
WEIRD BIRDS  
AND ANIMALS**

#### (REUTERS DISPATCH)

NEW YORK, May 16.—With a load of weird and rare zoological specimens from the Galapagos Islands, a little explored 600 miles west of Ecuador, the steamer yacht Noma carrying Harrison Williams Galapagos collection arrived here today after a voyage of two and a half months.

The collections are peninsular, flightless cormorants, monodactyls and land lizards, mocking birds, monodactyls and botanical plants, many have never before been in America. The animals and plants were dispatched immediately to the New York zoological park and the botanical specimens and mounted groups will be exhibited at the American Museum of Natural History.

#### REEB'S REPORT

The expedition was in charge of William Beebe, director of the Peabody Museum, and the station, which is under the name of the New York Zoological Society. "We got every species we went for," Prof. Beebe reported.

The best of the collections are flightless cormorants, fast becoming extinct, the horned marine iguana, some purple jays and a species of penguin.

All the animals were remarkable and we had little difficulty in capturing them. It was not they never had seen human beings before. Of the fifteen which extend for 200 miles west of the island.

**KIDNAPING  
WEDDING  
CAUSES RIOT**

NEW YORK, May 16.—A quiet wedding last night at the Peabody Museum, which was developed into a riot in the city when eight policemen were called to the scene to break up the party.

The bride and groom, when the crowd of 200 friends gathered to witness the wedding, were quiet. The mother of the bride, however, was not so quiet. She was heard to exclaim: "Poor girl! She is being deceived. The kidnaping is a trick. The women in the crowd are reviled with smelling salts and cold water."
